### Why tell stories about homelessness?

7,917 people experienced homelessness on a single night in January 2022.

22% were unsheltered.

37% were families with children.

290 of them were veterans.

“Now I realize! There are many reasons for homelessness beyond people's control. I will be more open to not judging people for being homeless. I will try to help solve homelessness, and spread the word to people to not be judgmental.”
