I have complete monthly packs that address specific kindergarten standards. The skills progressively get more difficult each month throughout the school year to help target your instruction. The goal is for students to be able to complete these worksheets independently, and the spiral review gives them the confidence and scaffolding they need.

READ THE REVIEWS ON TPT

“I love how easy this is for my students to do independently while I do my “morning jobs”! I also love that is goes right along with the standards!”

“I love the repetition that allows students to be independent in their work as well as the increasing level of complexity throughout the year. And top it off with a cherry that it aligns with standards! This allows me to check students in and get folders gone through without wasting precious time getting them focused and ready to learn!”

“One of my very favorite TPT purchases! My mornings are so much easier now that I use these. Requires very little direction and reviews important concepts! LOVE LOVE LOVE!”
