

Thank you for being part of the

community!

I love to spoil the teachers in my life!

You can use these files with your coworkers and/or your child's teacher.

I find out their favorite things and then send them goodies throughout the school year and during conferences.

My Favorite Things cannot be edited.

The Conference Survival Kit file can be edited using **Adobe II Reader** (free at adobe.com)

You can edit the teacher name at the top, add a note or poem and then add your name at the bottom.

- Open the file in Adobe II Reader
- Edit the text to personalize (blue shaded areas)
- Click SAVE AS and rename the file
- You're ready to print!
