Dear Local Veterinarian:

Veterinarians become such an integral part of the lives of pets and pet owners from the first day they bring home their new family member. Since you're the resource many turn to for any questions they have about their pet during its life, we wanted to let you know about the services we offer in the area for help with afterlife care. This way you can share our information with those who contact you for assistance after the passing of a pet, or in preparation for their afterlife care.

We are Eternal Paws LLC and we offer quality pet cremation services in Washington and Idaho with many local service areas. We offer pick-up service from area veterinarians, client's own homes, or they can come to us. Eternal Paws is a local family owned and operated pet crematory who delivers top notch customer service with a personal touch. With many pleased veterinarians, return customers, and word of mouth referrals since 2012 we are local and here to stay. We believe there's something special about small businesses working alongside other small businesses. To that end, we do our best to purchase our products locally and stay just a simple phone call away for you to get in touch with us.

## *OUR MISSION:*

**TO TREAT PEOPLE, PETS, AND PARTNERS WITH RESPECT,  
DIGNITY AND COMPASSION**

The connection that many people have with their family pet is sincere, we understand that they are another family member. We are inspired by the profound contribution that pets make in the lives of people and we love pets just as much. We're here to help those in our community plan for these hard moments ahead of time and support them during the end of their pet's life.

All pets are treated with respect, compassion and our cremations are guaranteed to be private, assuring that our clients will receive only their pets' remains. We use an ID tag tracking system which allows us to identify the pet through the entire process. We also specialize in quality custom urns for returning the remains to the pet owners.

We would be honored to include you in our list of Preferred Veterinary Partners in the area. We provide pick-up and cremation services at these vet offices and the complete list of our current partners can be found on our website at [www.eternalpawsllc.com](http://www.eternalpawsllc.com). We showcase our veterinary partners here and will showcase your office as well. There's also a For Veterinarians information link where you can download an information packet. We build a long lasting, trusting relationship with our clients and our website includes the following to enrich those relationships: contact information, pictures of our urn options and grief resources for those interested, along with a pet memorial blog where we share our client's stories.

We consider it a privilege to partner with the very best veterinary clinics around and will do our part in each situation to make sure that your clinic and Eternal Paws are represented with high regard. Please feel free to call us to join us as one of our reputable providers and/or schedule a time to meet with us personally. In the upcoming weeks we will reach out to you personally, we look forward to meeting you and learning more about how we can come alongside you as a partner in providing quality service to local pet families.

Thank you,  
Your Eternal Paws Business Partners  
Brian and Susie Main
