

Wedgwood STEAM Night

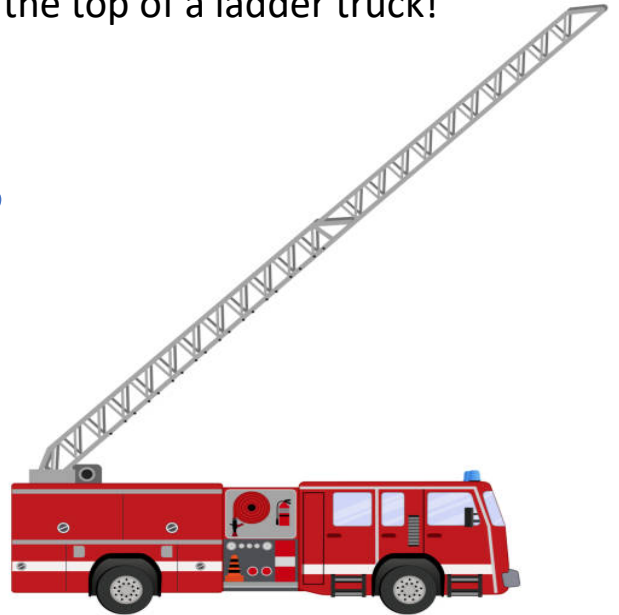

# Egg Drop Challenge

Put your engineering skills to the test by creating a container to protect your egg from breaking during a 40-foot fall from the top of a ladder truck!

*Friday, April 28*

Bring your egg drop container to the play court by 6:30 pm

Build a container at home and get creative with your materials. Keep your container smaller than 18"x18"x18". Label it with your name and grade, pre-load your RAW egg from home and bring it to science night to put it to the test!

Materials like

**Don't forget:**

**Label your container with name and grade!**

**Bring your own RAW egg!**
