Board Application

California Walks works to create safe, just, and inclusive streets and public spaces. We partner with state agencies, organizations and communities to establish and strengthen policies and practices that support pedestrian safety and healthy, walkable communities. We believe that those who have been harmed by oppressive systems and those most impacted by planning and political decisions should direct the development and implementation of solutions. We actively connect to and engage communities as leaders of change who drive decision-making processes in genuine ways that are based on their own expertise. We co-empower, co-create, and co-operate with communities.

Persons of color, gay, lesbian, bisexual and transgender people, persons with disabilities, persons who have lived in poverty, ex-offenders, and people fluent in more than one language are strongly encouraged to apply.
