The purpose of this webinar is to provide clear and concise information and expectations for participants of the 2019-20 Carl Perkins grant consortium.

I. Consortium Overview
II. 2019-20 Updates
III. Timeline of Events
IV. Point(s) of Contact
V. Questions
The Orleans Parish Consortium for Carl D. Perkins is made up of Orleans-based Type 1, 3, 3B, and 5 charter schools.

Having a consortium enables us to:

- Maximize funding
- Centralize administrative burden
- Pool resources for systemwide needs that individual schools cannot afford on their own (e.g., labor market data analysis, CTE teacher recruitment, specialized instruction)
### New in 2019-20

| • YouthForce NOLA is the fiscal agent for 2019-20  
• Centralized communications, webinars, and quarterly meetings | • LEAs do **NOT** need to complete Carl Perkins information in EGMS  
• Data will need to be shared with YouthForce NOLA to accurately report out | • Technical training for high-wage, high-growth IBCs  
• Teacher training and recruitment |
Allowable Use of Funds

There are six primary permissible uses for Perkins:
1. Career exploration and development activities through an organized, systematic framework
2. Professional development for CTE personnel
3. Provide skills in CTE programs to pursue careers in high skill, high wage, or in demand industry sectors or occupations
4. Support integration of academic skills into CTE programs and programs of study
5. Plan and carry out elements that support CTE programs and programs of study that improve student achievement and performance
6. Develop and implement evaluations of activities funded and to conduct the comprehensive local needs assessment.

Priority Citywide Initiatives

Teacher Recruitment and Training

- A citywide effort is underway to recruit and train high quality teachers in Orleans Public Schools
- CTE teaching is one of the identified fields of teacher training that needs additional support
- Carl Perkins V has indicated a need to improve the quality and strengthen the partnerships with institutions training teachers, faculty, administrators, and counselors

High Quality Technical Training

Centralized citywide service provision to develop students’ technical skills training and meaningful work-based learning in High-Wage, High-Growth industries that lead to basic and advanced statewide industry-recognized, and industry-based, credentials (IBCs)
Proposed Consortium Allocation Methodology

**Dimension**

**Step 1**
*Assess Total Needs*
- Assess shared needs and costs for teacher recruitment and third-party technical training via school submission

**Step 2**
*Determine Allocations, Ensuring Systemwide Equity for Students*
- Allocate funds to support systemwide services on behalf of Consortium members

**A**
Citywide Shared Needs
- Count total projected enrollment in statewide credential-bearing coursework & Quest For Success; determine per pupil "allocation" amount
- 5% of total allocation

**B**
CTE Coursework Enrollment Counts
- Divide available funds by projected enrollment, allocate proportionally
- 5% of total allocation

**C**
YouthForce Administrative fee
- 5% of total allocation
