The National Minority Quality Forum and the Congressional Black Caucus Health Braintrust thank the sponsors of the 2015 Leadership Summit on Health Disparities. Their support encourages and sustains us in the march toward health equity.
This year marks the fiftieth anniversary of the Selma-to-Montgomery marches—the generation-defining events that led to the passage of the 1965 Voting Rights Act. Like the right to vote, health care is a fundamental civil right that must be supported by the skilled hands and civic minds of concerned community leaders. The Affordable Care Act has strengthened health rights across our nation, just as it has built a foundation for health equity.

WellCare
InnovatIon drives our science.
Humanity drives our purpose.

To address healthcare challenges across the world, we unite a biotech spirit with the strength of a successful pharmaceutical business. The result is a biopharmaceutical company combining science, passion, and expertise to improve health and healthcare in new ways. Making a remarkable impact in people’s lives is more than our promise. It’s our purpose.

This focus—combined with our commitment to developing multi-stakeholder partnerships and our ability to deliver medicines globally—means that more people living with Hepatitis C, including the most difficult cases, can benefit from our efforts.

We are proud to support the National Minority Quality Forum.

Transforming the language of life into vital medicines

At Amgen, we believe that the answers to medicine’s most pressing questions are written in the language of our DNA. As pioneers in biotechnology, we use our deep understanding of that language to create vital medicines that address the unmet needs of patients fighting serious illness — to dramatically improve their lives.

For more information about Amgen, our pioneering science and our vital medicines, visit www.amgen.com.

Amgen is a proud sponsor of the NMOF 12th Annual Leadership Summit and Awards Dinner
Novartis is honored to support the National Minority Quality Forum

Novartis Pharmaceuticals Corporation researches, develops, manufactures and markets innovative medicines aimed at improving patients’ lives. We offer a broad range of medicines for cancer, cardiovascular disease, endocrine disease, inflammatory disease, infectious disease, neurological disease, organ transplantation, psychiatric disease, respiratory disease and skin conditions. The company’s mission is to improve people’s lives by pioneering novel healthcare solutions.

We are committed to embracing and leveraging diverse backgrounds, cultures and talents to create an inclusive, high-performing culture, to address the evolving needs of patients and customers, to support diverse suppliers, and to enrich the communities we serve.
