The Honorable Gitanas Nausėda  
President of Lithuania  

May 25, 2020  

Mr. President:  

Union of Councils for Jews in the Former Soviet Union (UCSJ) is the Washington, DC-based non-profit organization and grassroots movement with history counting from the beginning of 1970s as voice of emigration, Jewish survival, and human rights in states of the former Soviet Union. During 1970s and up to 1991 the UCSJ had spoke out against anti-Semitism and human rights abuses in the Soviet Union and also provided Soviet Jews with assistance to emigration as the spokesperson for the Refusenik movement, worked for the release of political prisoners and prisoners of conscience. Today we assist local groups in preservation of Jewish heritage and have extensive work with human rights groups across former Soviet states.  

Together with members of the International Religious Freedom Round-table we appeal to you to express our urgent concern with situation around continuous destruction of Old Jewish Cemetery in Vilnus,  

The Old Cemetery of Vilnus at Šnipiškės/Piramont is in danger of desecration by renovation initiatives to turn it into a secular conference center. The Old Cemetery of Vilnus was the burial place from 1487 to 1830 for over 50,000 of Jewish residents of Vilnus, including many of the great Jewish scholars of a city once known as Jerusalem of Lithuania.  

During the Soviet time, the gravestones were pilfered, and a sports arena was built in the middle of the cemetery on a foundation mixed with human remains. 99% of the Lithuanian Jewish community was wiped out during the Holocaust and cannot resist, but descendants of those buried there and tens of thousands of Jews worldwide are fighting back.  

The government of Lithuania has allowed the construction of the Convention Center to take place within the perceived boundaries of the Old Jewish Cemetery and the desecration continues into the 21st century is an affront to the International Jewish Community, the American people, and everyone who values religious freedom and ethnic diversity around the world and that the failure of the government of Lithuania to protect the Jewish cemetery violates the October 15, 2002 bilateral agreement between the US and Lithuania on the protection and preservation of certain cultural properties, including cemeteries.  

This agreement requires each country to take appropriate steps to protect and preserve the cultural heritage of all national, religious, and ethnic groups that reside or resided in its territory, specifically including victims of genocide during WWII. This obviously includes the Jewish community of
In 2008 the US Congress passed the joint resolution expressing “outrage of the construction that occurred within the perceived boundaries of the historic Jewish cemetery located in the Šnipiškės area of Vilnius” and declared: “cemeteries are sacred sites and are established to remain undisturbed in perpetuity, and the sanctity of a cemetery is determined by the bodies buried therein” and that while “construction of a commercial building on the site disgraces the cemetery, it does not change its status.”

In October 2014, the US Congress passed legislation which added desecration of cemeteries to the list of violations of religious freedom which are listed in the International Religious Freedom Act of 1998, violations of which have certain adverse consequences. This legislation determined that: “Cemeteries are sacred sites of national religious, and ethnic groups, which include cemeteries in the United States and abroad.”

Today, the Sports Palace, the Soviet-era structure built atop the cemetery, appears to be problematic itself: structure is derelict, unsafe and attracts inappropriate uses by unauthorized individuals. The sacred ground should be restored as a cemetery and memorial park to which pilfered gravestones can be returned. Let remain at peace thousands of ancient Jewish scholars, religious leaders, and other revered ancestors.

The purpose of our appeal is to make sure that the all desecration, including the currently proposed construction, development and future use of this site be halted, and to the extent the cultural or convention center is necessary, a different location be identified. The decision to mock the memory of Vilnius Jewry with a convention center in the middle of the city's medieval Jewish cemetery would be a grave error with unfortunate consequences.

We ask the Lithuanian Government to reconsider decision to build a convention center on the Old Jewish Cemetery and observe the existing bilateral agreements between the United States and Lithuania to prevent desecration of sacred sites. We appealed to the U.S. Government to review the observance by Lithuania its obligations of the mentioned bilateral agreement and enforce its implementation.

Sincerely,

Larry Lerner
President of UCSJ
