Initial Plan

On March 8, the entire gas supply of Artsakh was cut due to the direct intervention of Azerbaijan. Artsakh has been experiencing a humanitarian crisis. Kooyrigs supports over 80 beneficiary families in Artsakh who are in direct need of support as a result of the gas pipeline situation.

Our team contacted beneficiary families and municipality leaders to understand their direct needs. A great majority responded with 'electric heaters and electric burners'. As such, we launched a fundraiser to provide 80 electric heaters and 80 electric burners to our registered beneficiary families.

Departure: March 17, 2022
Return: March 20, 2022

Modified Plan

Due to the generous support of our donors, we were able to expand the impact of the delivery to provide aid to additional families. This required contacting local municipalities in Artsakh to connect with potential beneficiaries. Upon evaluation, we registered 39 new families into our database. At the moment, we have 119 beneficiary families registered with Kooyrigs in Artsakh.

The trip was intended to last 3 days, but due to closed roads and extreme weather circumstances, was extended to 6 days.

Departure: March 17, 2022
Return: March 24, 2022
March 18
Team Departs

March 19
Distribution in Stepanakert @ the Charles Aznavour Centre

March 20
Distribution: Askeran Municipality Khramort Village

March 21
Distribution: Martuni Municipality

March 22
Registering additional families at the Charles Aznavour Centre

March 23
Field discovery Administrative work

March 24
Visiting Mayreeg beneficiary families in their new homes

Team Returns

Procedure

1. Unload aid at the Charles Aznavour Centre
2. Contact municipality leaders and beneficiary families, notify them of our arrival to Artsakh
3. Distribute aid at the local community centers and municipalities
   a. Check-in existing beneficiary families
   b. Interview and register new families
   c. Receive donation acknowledgment from region leaders
4. Visit vulnerable families at their homes, evaluate their situation and provide them with necessary aid accordingly

Mission Report #1: Immediate Aid, Heat for Artsakh

Crisis Update

As of today, March 29 2022, Artsakh still does not have gas due to Azerbaijan's direct blocking of Artsakh's gas line. The gas was back for a couple days, before it was shut off once again, as it remains.

The extreme weather conditions have not improved. Due to the intense snow and poor road conditions, the retail supply chain has been severely interrupted. As a result, essentials like groceries and sanitary items have been running low. Worse is that Russia has halted all exports on flour, sugar, and oil (Armenia and Artsakh rely on Russia for these dry goods). While Armenia has reserves of flour, sugar and oil, Artsakh does not. As such, Artsakh is experiencing a flour, sugar and oil shortage.

Our Next Steps

Due to these vulnerable conditions and needs of beneficiary families, our team has organized another aid delivery for March 30, 2022 in which we will visit the border region of Martuni to provide heaters, burners, dry goods, clothing and more.

In addition to gifting heaters, we believe it is necessary to provide an electricity credit to help pay the electric bills of our beneficiaries. We want to ensure that they not only receive the heaters, but are able to utilize them comfortably. Based on our calculations of the average cost per device voltage, $20 a month would be a fitting credit amount. We intend to directly credit the utility accounts of our beneficiaries.
