Section 4

SUMMARY OF COMMENTS AND QUESTIONS

Verbal and Written Questions / Comments and Responses

1. **Question/Comment:** US 280 / 119 intersection change requests were submitted at a previous meeting, but changes were not made prior to repaving on US 280.

   **Response:** The request was given to the ALDOT, but resurfacing projects do not require MPO comment / approval.

2. **Question/Comment:** Requests that large documents that require extensive review be sent to the Committee prior to the meeting.

   **Response:** The Draft Public Participation Plan was mailed to the Transportation Citizens Committee prior to the presentation to the TCC per the recommendation of the TCC’s Public Involvement Subcommittee. The RPC also references website links in meeting notices when appropriate.

3. **Question/Comment:** Great enhancements are being suggested for the new Plan, the database and the website, but would like to note that the need for TCC review of final draft process documents is unnecessary and would potentially delay projects.

   **Response:** Chairman Fritschi noted that the TCC should review the final draft documents and make any comments / recommendations on the comments that are received by the public as part of the TCC’s responsibilities to drafting / updating public process plans / documents. This review process will only add one month to the project review process.

4. **Question/Comment:** Commented that politicians sit back and do nothing, therefore input from the public is very important.

   **Response:** This is why participation by citizens is important to the progress made in identifying and moving projects forward.

5. **Question/Comment:** Asked if when comments have been received and documented, can they be sent to the TCC and MPO at the same time for assessment and not delay projects.

   **Response:** Comments received during the open comment period are documented in a public involvement document and are to be presented to the TCC prior to going to the MPO for final approval.
6. **Question/Comment:** Feels a less than 30 day delay to allow for TCC review is not too long.

   **Response:** This is consistent with the Public Participation Plan.

7. **Question/Comment:** Request that changes to the Public Participation Plan document be tracked when presented to the public for comments.

   **Response:** The provisions in the Public Involvement Procedures adopted by the MPO November 2003 are included in the Draft Public Participation Plan and expanded upon to be a more comprehensive document.

8. **Question/Comment:** Many communities have authorized law enforcement to impound automobiles of those without proper documents. This population included many Hispanics. Additionally, many Hispanics do not have their own transportation. What efforts are being made to include Hispanics in such process as the current one? What is available in the Spanish language? To my knowledge no effort / consideration has been made in this direction. Perhaps the time has come to reach out via information, forums, speakers concerning transportation issues that impact the Spanish speakers living in our area.

   **Response:** Staff is establishing a continuing outreach program by working with a Hispanic consulting firm. This population is included in the Public Involvement mailing list.

9. **Question/Comment:** Typographical on page 11, next to last line of first paragraph that is continued from page 10. This line begins reception “are” and should read reception “area.” On page 12, under face sheets should be fact sheets.

   **Response:** These errors have been corrected.
