Economic Development

Economic development is paramount to a community's way of life. The Regional Planning Commission partners with municipalities to improve their land use, infrastructure, and business development through federally funded grants. There are federal grants that can help you with planning initiatives; public works such as sewer and water systems; rural area services; slum and blight alleviation; Brownfield Redevelopment plus education and training initiatives. RPC can help you discover the right grant as well as provide additional assistance to the writing and application process. The Regional Planning Commission is here to support you have a project of mine. Let us know. For more information please visit our web site at RPCGB dot org.
