HOW TO USE THE OFFSET FUNCTION IN PHOTOSHOP

1. CREATE A NEW DOC

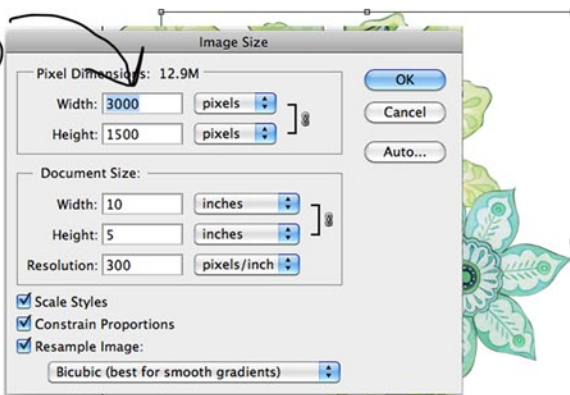

2. PLACE YOUR ART

3. CHECK WHAT YOUR IMAGE SIZE IS IN PIXELS

GO TO "FILTER" -->
"OTHER" -->
"OFFSET"

MAKE SURE YOU HAVE
"WRAP AROUND"
SELECTED

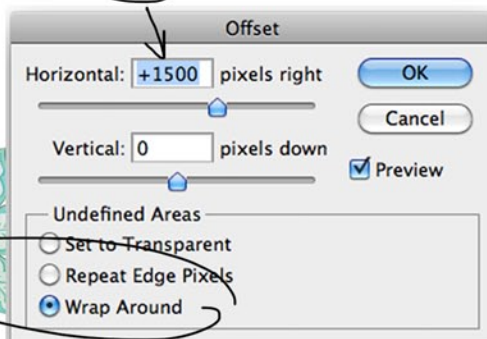

3

4. TAKE 1/2 OF YOUR DOCUMENT'S PIXEL WIDTH AND ENTER IT IN THE HORIZONTAL SECTION

NOW YOU WILL HAVE A SEAMLESS IMAGE WRAP FROM ONE EDGE TO THE OTHER TO SKETCH OFF OF

FYI- THIS IS THE SAME PROCESS I USE TO CREATE ALL OF MY PATTERNS, JUST USE THE TOGGLES IN BOTH DIRECTIONS WHILE IN "OFFSET"

GOOD LUCK!
