

June 2025

To Members of the General Assembly,

In order to ensure working families have access to child care, it is imperative that the commonwealth alleviate the historic staffing crisis that is causing classrooms and entire programs to close. Families are struggling to both afford and find available child care. The last three state budgets prioritized initiatives to help families afford care. The Child and Dependent Care Tax Credit is helping some families who already have care and The Employer Child Care Contribution Tax Credit, will also help some businesses reduce child care costs for the families that work for them.

Unfortunately, these supports do not keep child care classrooms open for families. They do not keep child care programs from closing their doors. Since the start of the pandemic, over 2,100 Pennsylvania child care programs have closed citing lack of staff as the primary reason, and a recent survey found that half of the current workers are considering leaving their jobs due to insufficient wages.

The child care staffing crisis is caused by the industry's unlivable wages. **In fact, child care wages are so low that they fail to meet the cost of living in every single county in Pennsylvania.** Child care programs cannot fix this staffing crisis with their current budgets or by raising tuition, as working families cannot afford to pay more to cover the cost of higher wages.

Pennsylvania currently has over 3,000 open child care positions that have eliminated child care for more than 25,000 children in the commonwealth. With fewer and fewer classrooms open, the number of families without safe, reliable child care will only increase.

We are asking you to prioritize an investment that helps child care providers maintain their current staff complement and encourage qualified individuals to fill open positions and re-open classrooms. At least 18 other states across the country have implemented child care staffing recruitment and retention initiatives.

Pennsylvania can be a leader rather than continue to fall behind, and so we urge you to include, at minimum, the \$55 million proposed by Governor Shapiro in new and recurring state funding in your 2025-2026 state budget proposal to implement a child care teacher recruitment and retention initiative to fix Pennsylvania's child care crisis. Pennsylvania's working families and our economy depend on it.

Signed by 4,905 Pennsylvanians
