

PBM DRUG PRICING PRACTICES LAYER \$47 MILLION IN EXCESS CHARGES TO STATE MEDICAID PLANS NATIONWIDE

A recent 3 Axis Advisors drug pricing [report](#) found that the Oregon Medicaid program was made to pay more than eight times the manufacturer's asking price for a popular generic multiple sclerosis drug.

In the 31 states where the amount paid for this generic multiple sclerosis drug was reported, it's estimated that **states nationally overpaid by nearly \$47 million compared to the manufacturer list price for the medication** – roughly \$3,000 per prescription.

OREGON ISN'T ALONE.

Estimated Average Medicaid Managed Care Payment Above Wholesale Acquisition Cost (WAC) for Dimethyl Fumarate 240 MG per 60 Capsules, Fixed WAC Cost of \$350 per Rx (2021)
