

DIRIDON STATION AREA COMMUNITY MEETINGS

You are invited to be a part of the planning efforts to create an extraordinary Diridon Station Area.

Join in this opportunity to learn about and provide feedback on the city planning efforts shown on this map:

What to expect:

City staff will discuss the planning process and present initial concepts under consideration. You'll get to talk with the project team, ask questions, and share your input on the topics you care about, such as transportation, housing, and public space.

Your input will build upon previous public feedback. We'll be continuing community engagement through Fall 2020.

We look forward to speaking with you!
