

Cyba lila

This is a choose-your-own adventure, of sorts.

Within this book you will find a collection of crafted cocktails, carefully curated wine and artisanal spirits. No matter your imbibing preference, it is our intention to help you select the perfect beverage to compliment your meal.

Conversations and questions are not only welcomed, but they are also encouraged.

On the following pages you will find a thoughtfully curated wine list championing those winemakers and grape growers who are farming their vines responsibly and who are crafting their wines with little to no intervention.

The focus of this list is on Italian winemaking regions, both classic and off-the-beaten-path, as well as those of Southern Europe. However, we proudly showcase wine from around the world that are delicious, made with intention and speak to a sense of place and time.

Each of these selections come from vines that were farmed without the use of chemical or synthetic fertilizers and all the wines were fermented with ambient yeast. We are wildly proud to support the farmers and winemakers who commit themselves to preserving their land and the art of their craft.

Our list, much like wine itself, is ever evolving.

We cannot wait to help you find your perfect bottle.

Our corkage fee is \$50 per bottle
