Re: Parent's Right to Know

Lake Oconee Academy (LOA), as a member of the Greene County School System, must meet the federal regulations as defined in ESEA. These regulations allow you to inquire about your child's teacher's training and credentials.

As per federal requirements, LOA will provide the following information at your request:

- Whether the teacher met state qualifications and certification requirements for the grade level and subject he/she is teaching,
- Whether the teacher received an emergency or conditional certificate through which state requirements were waived, and
- Whether undergraduate or graduate degrees the teacher holds, including graduate certificates and additional degrees, and major(s) are areas of his or her certification.

You may also ask if your child receives help from a paraprofessional and, if so, what the qualifications of that person may be.

As you know, LOA is extremely proud of the teaching and learning that has taken place due to our highly prepared and dedicated faculty. Excellence in teaching has been the trademark of our school and remains part of the LOA tradition since its inception. LOA has extended that tradition by having an exemplary faculty in place for the 2016-17 school year.

If you have any questions, please feel to contact me at school 706.454.1562.
