AirFly and AirFly Pro by Twelve South

Use AirPods or wireless headphones where you normally can't.

Plug AirFly into the headphone jack on a plane to watch live TV or a new movie with your favorite wireless noise-cancelling headphones. You can also pair two sets of AirPods or wireless headphones with AirFly Pro so two people can listen to the same movie, podcasts or video game.

HP Sprocket Studio Plus 4x6 Photo Printer

This all-in-one printer serves as your own personal photo lab, perfect for printing all those photos you have on your phone. Set up the printer in seconds via the easy-to-use HP Sprocket app and connect your smartphone to the printer via Wi-Fi. Take pictures then customize them in the photo-editing app by making a collage, posing for a photo booth, or stretching a single image across multiple prints to defy size limitations! Watch your beautiful, captured moments come to life as they are transformed into vibrant, glossy prints, perfect for fillings frames or popping pictures into photo albums. Gone are the trips to the store to print pictures!

Mophie 3-in-1 extendable Stand with MagSafe.

The 3-in-1 extendable stand with MagSafe delivers up to 15W of power to your phone, AirPods, and Apple Watch. The extendable stand with weighted base saves space on your work surface and lifts your phone up to your line of sight while it charges. So, you can video chat or make hands-free calls. The extendable stand and adjustable head let you find the perfect, flattering viewing angle. And the magnetic surface ensures precise alignment for charging that begins on contact.
