The Plus service also provides access to DALL-E and a newer data set. www.chat.openai.com

Apple AirTag

AirTag by Apple is an essential tool for effortlessly tracking your belongings. Its compact size make it the perfect companion for safeguarding items like keys and wallets. AirTag allows you to locate your possessions, view real-time positions on a map, and receive directions to their last known locations. With a focus on privacy and security, AirTag restricts access to your location data, granting only you and designated individuals the ability to track your items.

Ideal for travelers, AirTag is not only a reliable companion for everyday items but also a valuable asset in preventing lost luggage during trips. By attaching AirTag to your suitcase, you gain the ability to monitor its location throughout your journey. Whether navigating daily routines or embarking on adventures, Apple AirTag delivers peace of mind and convenience, making it a great tool for tracking and securing your valuables. www.apple.com

ExpressVPN

ExpressVPN is a premier virtual private network (VPN). With servers spanning across 160 locations in 94 countries, ExpressVPN ensures a secure and private internet experience for its users worldwide. The service employs military-grade encryption, safeguarding sensitive data and shielding users from potential cyber threats. Speck ClickLock Phone Case System

Speck phone cases are designed to be both stylish and protective. They come in a variety of colors and textures to express your personal style, and they're made with shock-absorbing materials to shield your phone from drops and bumps. Speck cases also feature cutting-edge technology, such as raised bezels to protect your screen and the rear of the phone, including the camera. They also are the only brand with ClickLock.

Tired of your MagSafe accessories constantly slipping off? Enter ClickLock, Speck's game-changing innovation. Ditch the wobbly magnets and embrace a secure, mechanical interlock that keeps your wallet, car mount, or kickstand firmly attached, no matter the bumps or jostles.

ClickLock's unique bolt-and-receptacle design creates a rock-solid connection, ensuring peace of mind and worry-free MagSafe use. One-handed attachment and detachment make it a breeze, while the durable design guarantees long-lasting performance. Upgrade your MagSafe experience with ClickLock – it's the smarter, more secure way to go.
