E. UNFINISHED BUSINESS.
1. FY 2015-16 Audit Adjustment
   • No update - Brown to check again on final FY 2016 adjustment with Costello Associates.
2. Revenue estimates – fees
   • Ongoing problem with accounting for fees under revenue. May be a glitch in the agency’s transition last year from Peachtree software to QuickBooks software. Working with accountant and office manager to account for numbers, but no resolution yet.
   • Brown to provide his “best guestimate” of fees for next year’s budget planning.
   • Need to enforce policy re: late fees and follow-up discussed.
3. FY 2017-2018 Budget Planning Process
   • Brown continued his discussion of background considerations for the FY 2018 budget and provided the Committee with a first draft of revenues and expenditures for FY 2018.
   • Centralization and its timing are major issues. Brown and Committee members are sensitive to the state’s fiscal crisis and the financial pressures facing the agency’s member towns.
   • Zero sum budgeting will be more difficult this year.
Reserve funds issue needs review.
With the resolution of several legal issues and new collective bargaining contract budget planning is more predictable and have brought some expenses, such as legal fees, down.

Revenue
- Estimates of per capita charge to member towns discussed.
- Brown recommended not raising user fees for FY 2018, but instead looking at 1) changes to fee waivers granted and 2) addition of late fees. Will discuss further with the agency’s supervising sanitarian. Committee asked that an analysis be done and proposal brought to Committee for consideration.
- Changes in state per capita funding and/or possible rescission of state per capita funding by executive order as was done the last two years not known. Brown will run the numbers for the Committee’s next meeting.
- Reduction in other grants anticipated as well as possible reduction in flu vaccine reimbursement from insurers.
- Agency needs to look at future revenue generating and possible sources.

Expenditures
- Items reviewed with Committee. No estimate of health insurance costs yet – Brown to check with Paul Lewis, agency’s insurance agent of record.
- Governance Committee has raised the need to begin planning for the community health assessment cycle and options to do.
- Committee suggested that Brown establish some special work groups under his Office to look at 1) the agency’s influenza program and possible changes; and 2) the opioid epidemic and new funding related to prevention, treatment/intervention and recovery management and where agency might have a role.

F. NEW BUSINESS
   - Brown will have ready for the Committee’s next meeting.
2. Annual Review of Budget Revision Policy

3. Accounting Services
   - Sartucci discussed the need for a different kind of accountant services given the new fiscal territory into which the agency is heading with centralization.
