

Sleeves, 9oz. Cotton FR, Green

Weldas manufactures a full line of protective clothing made from FR-7A flame retardant cotton sateen. The fabric conforms to the Federal test method 191.5903 and will retain its flame retardancy for up to 50 normal home washings and 25 commercial. The specially designed under-arm sport cut and hemmed collars are standard features on Weldas jackets, coats and cape sleeves. The jacket also features an inside pocket and a five-snap front which allows less gap for sparks to enter.
