Plant Varieties

Winter/Spring 2019
Taste it!

Our beautiful and delicate greens are beyond tasty and refreshing. Grown in a clean, controlled environment, they are harvested at the peak of freshness and delivered in a fraction of time compared to conventionally produce.

Uniquely Grown

Our advanced technology enables year-round production with vertical growing modules. The environment is tailored to exact plant needs to enable optimum growth using less energy and resources.
Unbeatable Quality

We grow our produce with nutrient formulas designed to bring out the best flavors and colors. Our high-density capabilities allow for a consistent, high quality growth which translates to longer freshness and less waste.
Lettuce

Smooth and crisp leaves clean-grown and harvested at their peak. More than just an ingredient, our lettuce makes a salad amazing with beautiful colors, interesting form, and light flavors.

<tbody>
<tr>
<td><strong>Bakero</strong></td>
<td>Oakleaf</td>
<td>Compact oak-shaped leaves formed into a perfectly round head. Wonderful variety for full-head presentation.</td>
</tr>
<tr>
<td><strong>Boston</strong></td>
<td>Butterhead</td>
<td>Fast growing variety with light green color.</td>
</tr>
<tr>
<td><strong>Breen</strong></td>
<td>Romaine</td>
<td>Crisp, smooth leaves with sweet taste. Red and green contrast make an excellent addition to salad mix.</td>
</tr>
<tr>
<td><strong>Cherokee</strong></td>
<td>Summer Crisp</td>
<td>Crisp leaves with nice texture and flavor. Rich colors and full leaf size is perfect for many applications.</td>
</tr>
<tr>
<td><strong>Fenberg</strong></td>
<td>Romaine</td>
<td>Fantastic texture with frilly leaves with incised tips. Nice crunch and sweet flavor.</td>
</tr>
<tr>
<td><strong>Fillice</strong></td>
<td>Crisphead</td>
<td>Deeply incised leaves with excellent crispy taste.</td>
</tr>
</tbody>
</table>
**Green Shen**
Romaine
High yielding fresh green variety.

**Lolla-Rosa**
Leaf
Beautiful frilly leaves with pink tips.

**New Red Fire**
Leaf
Beautiful heads with uniform development though slower growing than other leaf varieties.
Red Cross
Butterhead

Broad, frilly leaves marked with brilliant red tips. This variety is a treat to the eyes and the mouth.

Red Leaf
Leaf

Red waved leaves perfect for loose leaf harvesting.

Rex
Butterhead

A traditional butterhead variety with smooth texture and rich flavor. Perfect variety for whole leaf use.
Rosaine
Bibb
This mini variety forms beautiful compact, rounded leaves with hints of red across the entire leaf.

Tropicana
Leaf
Fast grower with large, robust leaves. A beautiful deep green with smooth flavor.

Truchas
Romaine
Smooth leaves with deep red tint. Dense, compact growth of this mini head variety is ideal for salad mix.
Salanova®

The most perfect lettuce for salad mix you will ever find! Salanova varieties have been developed for wonderful flavor, uniform growth, and easy processing. Dense heads with compact growth are harvested with minimal waste leaves. Each style is available in green and red leaf varieties.

**Green Oakleaf**

Smooth, lobbed leaves with nice flavor. Heads fall apart into a perfect no-cut size when snipped at the base.
Red Butter
This visually stunning lettuce is the Suncore staff’s favorite! Light, smooth flavor and beautiful rounded leaves with deep red tips.

Green Sweet Crisp
Delightful crunchy leaves with taste true to name. Interesting form with sweet flavor and no bitter aftertaste.

Red Incised
Don’t let this delicate lettuce fool you! These frilly leaves have an amazing crunch and light flavor that adds volumes to any salad mix.
Mixed greens are a grower’s dream with their ability for dense planting and multi-cut harvesting. Grown for baby leaf mixes or for full-leaf bunching, greens add deep colors, flavor, and texture whether cooked or raw.

<tbody>
<tr>
<td>Curly Kale</td>
<td>Quintessential kale with dense, curly leaves with rich peppery flavor.</td>
</tr>
<tr>
<td>Endive</td>
<td>Beautiful incised leaves with nutty flavor. Slower growing, but less chance of tip burn.</td>
</tr>
<tr>
<td>Radish</td>
<td>Peppery flavor in both the root and the leaves! Tops make an interesting addition to salad mixes or soups.</td>
</tr>
<tr>
<td>Rainbow</td>
<td>Swiss Chard Bright, bold colored stems with rich green leaves and earthy flavor.</td>
</tr>
<tr>
<td>Red Leaf</td>
<td>Amaranth Heart-shaped leaves with a blush of red in the center. Taste similar to spinach.</td>
</tr>
<tr>
<td>Red Russian</td>
<td>Heritage Kale Large, flat leaves with ruffled edges and red veins. Light flavor and wonderful texture.</td>
</tr>
<tr>
<td>Red Sweet</td>
<td>Swiss Chard Mild chard flavor with deep red stems and veins.</td>
</tr>
<tr>
<td>Scarlet</td>
<td>Curly Kale Curly style, similar to Darkibor, with red leaf tips and veins. Wonderful cooked or raw!</td>
</tr>
<tr>
<td>Spinach</td>
<td>Traditional smooth leaves with deep color and rich green taste.</td>
</tr>
</tbody>
</table>
Asian Greens

Commonly stir-fried or used in soups, these tender leaves and crunchy stalks have made their way into grilled dishes and salad mixes. Their smooth, yet rich flavor adds a fresh and unique quality not found with other greens.
# Bok Choy

<table>

<tbody>
<tr>
<td><strong>Dean May</strong></td>
<td>Full size</td>
<td>Beautiful dark green. Best flavor at full size.</td>
</tr>
<tr>
<td><strong>Dwarf Bok</strong></td>
<td>Baby variety</td>
<td>True baby bok with quick growth and rich choy flavor. Dense 2” heads with deep green leaves and white stalks.</td>
</tr>
<tr>
<td><strong>Dwarf Green</strong></td>
<td>Baby variety</td>
<td>Densely headed variety with full choy flavor.</td>
</tr>
<tr>
<td><strong>Li Ren</strong></td>
<td>Baby variety</td>
<td>Harvested at 5” tall and ready to use - no chopping required. Tender lime green stalk and leaves.</td>
</tr>
<tr>
<td><strong>Mei Qing</strong></td>
<td>Full size</td>
<td>Similar to Li Ren, but grows 8-10” to form vase-shaped base with large and compact oval leaves.</td>
</tr>
<tr>
<td><strong>Red Pac</strong></td>
<td>Baby variety</td>
<td>Striking leaves with smooth flavor. Grown as baby leaf or baby head. Leaves turn green when cooked.</td>
</tr>
</tbody>
</table>
Our most striking and consistent variety. Forms dense white stalks and large, deep green leaves.

White stemmed choy with heavy, vigorous growth.
Specialty

**Choy Sum**
Bunching
Best known for the striking yellow flowers. Leaves, stems and flowers are all edible.

**Iceplant**
A type of succulent, this green is a novel addition to salads. Tiny bubbles on leaves pop when eaten for a pleasing experience.

**Mizuna**
Bunching
Amazing texture and shape! Deep green leaves with mild spice and crunchy stems. Purple varieties also available.
**Tatsoi**
Bunching or head
Deep green leaves with fantastic crunch. Beautiful patterned of dense inner growth.

**Tokyo Bekana**
Bunching or head
Stand out variety with brilliant lime green leaves and white stalks. Fast grower and unique flavor.
Baby leaves are the middle stage between micro greens and a full leaf. They are harvested at about 2” when full of flavor but at the perfect ready to use size. The best way to create a unique salad.
**Spicy Greens**

**Arugula**
Traditional broad leaf salad mix green with peppery flavor.

**Sweet Lettuce**

**Coastline**
Spiky leaves with very mild taste.

**Garnish Greens**

**Cutting Celery**
Delicate leaves with delightful light celery flavor.
Greenwave
Large leaves with ruffled edges and extra spicy flavor.

Mizuna
Fun shape with a mild spice. Fantastic addition to any mix.

Outregeous
Smooth, light green leaves with red tips.
Asian Greens

Red Pac
Crisp leaves with light choy flavor and striking color when raw.

Spicy Greens

Red Rain
2” leaves with mild spice. Dual color leaves with red veins.

Curly Kale

Scarlet
Light red color with slightly ruffled edges with perfect kale crunch.

**Spicy Greens**

**Scarlet Frills**  
Striking dual color leaves with flavor that pack a punch!

**Mild Asian Greens**

**Shungiku**  
Edible Chrysanthemum leaves with mild flavor perfect for anything.

**Sweet Lettuce**

**Tango**  
A classic salad green. Small incised leaves with mild flavor.
Tokyo Bekana

Novel broad leaf with delightful light cabbage flavor.
Salad Blends

Create unique combinations that represents your desired dining experience. Choose from a range of varieties selected by our growers for their flavor, texture, and color. Blend any combination from traditional lettuce varieties to spicy mustard greens to unique Asian varieties to make a visual impact.

Pictured Blend:

1. Green Oakleaf
2. Green Butter
3. Darkibor Kale
4. Mizuna
5. Swiss Chard
Mix & match to create a signature experience!
Herbs

Dense and fast growing, our broad leaf varieties are aromatic and flavorful. Our selected varieties can be grown both as a multi-cut or single harvest crop.
Shiso
Large leaf Asian herb from the mint family. Can be cooked or used as an outer wrap.

Chinese Celery
Celery
This variety is traditionally cooked which sweetens the taste. Stems are thin and hollow with large leaves.

Cilantro
Classic cilantro with robust flavor.

Crown Daisy
Chrysanthemum greens with mild herbaceous taste. Harvest at the right size to avoid bitter flavor.

Genovese
Basil
Traditional, fast growing sweet basil. Large leaves with wonderful aroma and flavor.

Greek Basil
Basil
Attractive and intensely flavored.
Parsley
Curly leaves with dark green color and light flavor.

Purple Petrola
Basil
Dark purple leaves with great basil flavor.

Red Celery
Celery
Celery flavor with light purple stalks.

Sheperd’s Purse
Leaves are used live and dry in medicinal and culinary applications. Produces seed pods with peppery flavor.

Sweet Thai
Basil
Narrow leaves with spicy anise flavor. Used in Asian dishes cooked or as a garnish for sweet dishes.
Micro Greens

From seed to harvest in mere weeks, these immature plants harness the intense flavor of a full grown leaf in just two inches of plant. Custom order trays with any variety combination to achieve the desired flavor.
