

Locals Helping Locals

HELP US HELP LOCAL BUSINESSES

Nominate a Business Today!

We are so fortunate to live in a community where we all rally together in a crisis. We know that many of our neighbors and local businesses have been affected by the COVID-19 pandemic. As businesses begin to reopen, we also know that there are going to be things that they need to change or modify in order to follow safety protocols and physical distancing guidelines.

We want to help!

We'd like to offer our services (free of charge) to implement some small renovation projects for local businesses who may not have the manpower or skills to do it on their own.

This is where you come in...
You can nominate a local business that needs our help!

Criteria:

We'd love to find projects that help businesses get ready for the new social distancing guidelines and do not require permits to execute.

We can offer up to 40 hours of free labor, including a consultation, some recommendations, and execution.

The business owner needs to provide or pay for all materials and we'll do the rest!
