Developer Fees

- 1974: The concept is rooted in CEQA
- 1979: SB 201 fees for “Interim Housing” City and County authority only
- 1986: AB 2926 Fees imposed first time thru school board authority
- 1998: SB 50 Level 1 1986 benefits Level 2 calculated to match state funds
- 2012: Level 3 Suspension

Note: Most districts at old Level I fee only
Community Facility Districts

A negotiated tax that a district Board agrees to impose on a willing land owner/developer in advance of sub-divided properties being developed and sold to future homeowners. It relieves the developer of paying a fee to the district while taking the risk that the market would turn down, homes would not sell and the developer would be responsible to pay the tax.
Current State of Affairs

- We are, as a State, without sufficient state bond funds to meet the needs.
- The dramatic improvement in the sale of new homes will put pressure on the developers and school districts to be able to fund or finance schools.
- The development community and school community together will want the Governor to approve a statewide bond for 2014.
2014 State Bond

- We have been without a bond since 2006.
- The School Facility Program (SFP) is being depleted of state bond resources.
- The Level 3 fee created in statute in 1998 has been suspended through the end of 2014.
- The State Allocation Board has created a Program Review Subcommittee to explore major changes in the SFP.
- Assembly Bill 41 (Buchanan) will be the bond vehicle in 2014.
Coalition for Adequate School Housing

The Coalition for Adequate School Housing (C.A.S.H.) was founded in 1978 to advocate for K-12 facilities funding and improve school facilities in California. C.A.S.H. began as a coalition of existing statewide organizations and a few dozen school districts. Over the years, C.A.S.H. evolved into a single organization that has grown to more than one thousand public and private sector members making it the largest statewide premier organization focused exclusively on school facilities issues.
