Prince George’s County Mask Mandate Policies and Artistic Performances

Prince George’s County mandates the usage of indoor masks for all residents and visitors ages 2 and up. This policy may hamper or impede some performances, whose participating artists are not able to adequately perform live while wearing face masks. Event producers and arts venues may request face mask exemptions for their performing artists. Persons/venues seeking exceptions must submit a request for exemption to the Health Department and Office of Emergency Management at Covidplans@co.pg.md.us. The email requests to the Department of Health should detail the measures that will be taken to minimize health risks and potential COVID spreading. Once the requests have been The Health Department officials will work with art event producers to ensure that an adequate health COVID policy is in place. Once a plan has been approved for an event at a performing arts venue no further requests need be made for events unless they differ in nature.
