

# 2017

CITY OF ROGERS, MINNESOTA

## **PARKS, OPEN SPACE, AND TRAIL SYSTEM PLAN**

Preserving the sense of place and livability of the community.

DECEMBER 2017

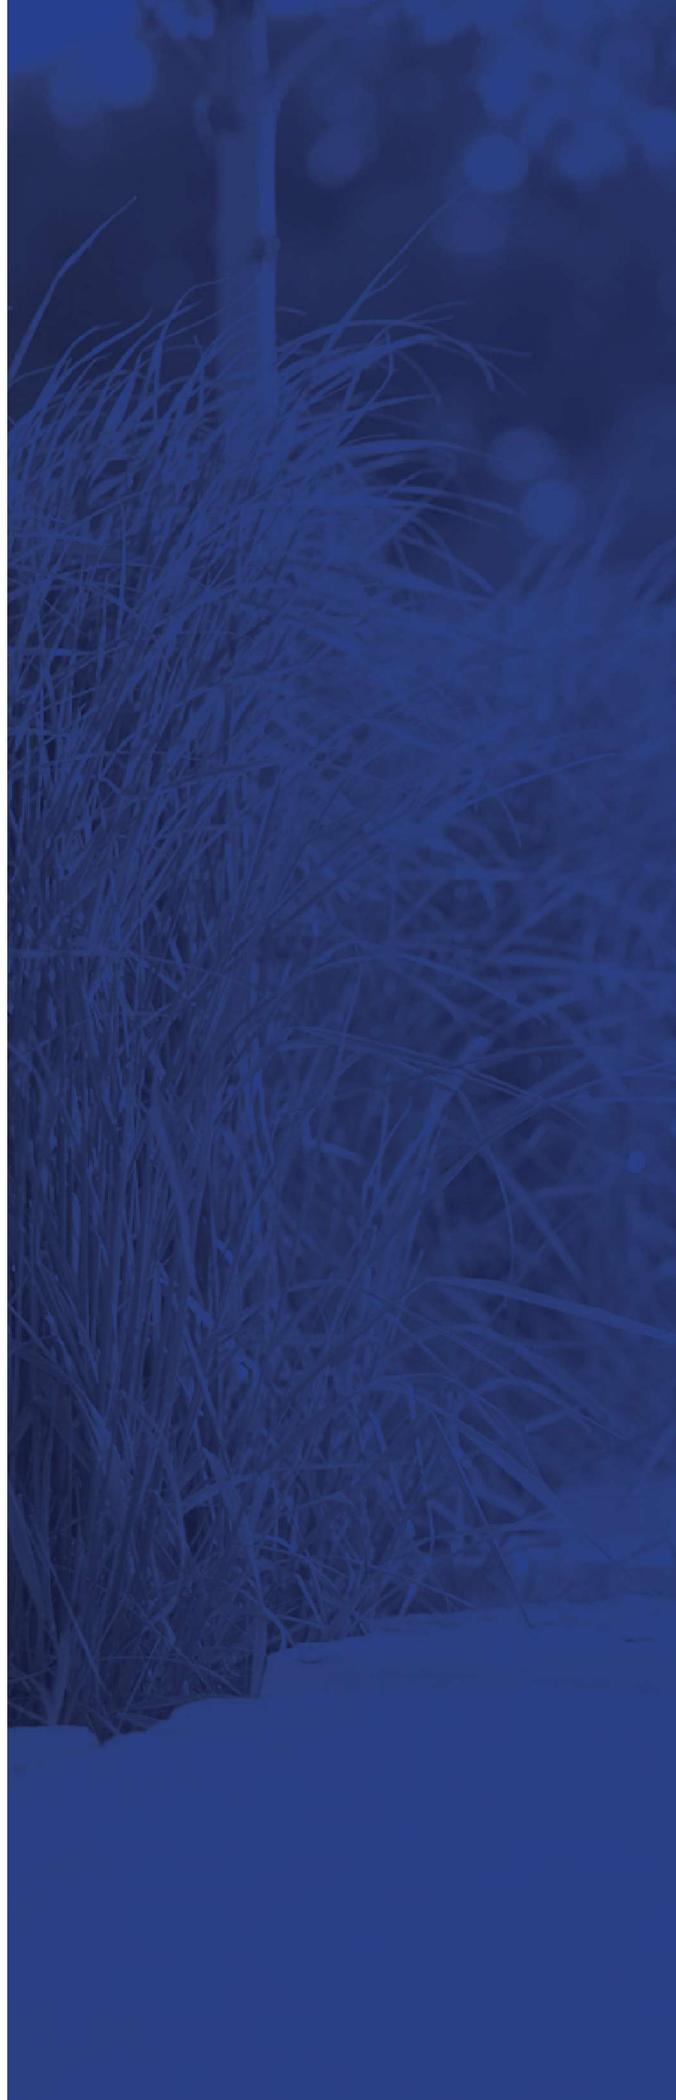

# 2017

CITY OF ROGERS, MINNESOTA

## **PARKS, OPEN SPACE, AND TRAIL SYSTEM PLAN**

### **ACKNOWLEDGEMENTS**

The 2017 Parks, Trails, and Open Space Plan is an update to the 2007 plan, including the 2011 and other related amendments. Over the past 10 years, the City has made significant improvements and experienced changes within their system, with the most notable being the inclusion of Hassan Township into Rogers, all of which are captured within this plan. A variety of comprehensive city-wide engagement activities and survey were conducted from 2014-2017 to help determine what changes, if any, the City should plan for to meet the needs and desires of the community. The 2017 Plan consolidates past updates, incorporates the many improvements made to the parks and trails over the past 10 years and outlines proposed recommendations for the next 10 years.
