This fiscal year was filled with challenges as the State of Louisiana experienced the great flood of 2016. In August, prolonged rainfall in southern parts of the state resulted in catastrophic flooding that submerged thousands of houses and businesses. Twenty parishes in Louisiana were designated as federal disaster areas by FEMA in the aftermath of the floods.

Museum operations were also impacted by the flooding, as the newly established museum annex, the Reception Center, was re-opened as an offender housing area. Female offenders from the Louisiana Correctional Institute for Women located in St. Gabriel, Louisiana were evacuated from that flooded facility to Louisiana State Penitentiary at Angola. By necessity, they were segregated from the male offenders and were housed at the Museum’s Reception Center (RC). This also necessitated the closure of the Big House Café operations which had become a promising revenue stream for the museum. Museum staff worked closely with the penitentiary staff to preserve the exhibits at RC.

In March, the female offenders were transferred to another housing facility in south Louisiana. The penitentiary returned the use of the facility to the museum. Tours Café operations were not immediately resumed due to staffing issues, but a resolution is currently in progress. It is anticipated that both the café and tours will resume normal operations at the beginning of fiscal year 17-18.

This annual report contains the year in review of activities of the Museum Foundation and its progress toward achieving goals set forth in its strategic plan.
