# WINES

Dear friends,

Let's do the math and enjoy better wine for less. We add a flat \$250 per bottle to the cost of all our wines

Creating these bottles requires a bit of art, a bit of science, and a shit tonne of hard work by winemakers and farmers. We just buy the stuff.

So no matter what you fancy we're happy to skip the traditional markups, pull corks, and sling glasses.

## ABOUT THE ARTIST

Shuilam Wong is a visual artist who grew up in Tokyo, Hong Kong, Singapore, Beijing, and London. She creates illustrations using bold brushstrokes and a graphic reportage style, often depicting people and anthropomorphic animals.

Inspired largely by underground culture that crosses beyond borders, she draws onsite at bars, live music venues and events. These sketches become either stand alone pieces, baselines for colourful artworks, or studies towards larger paintings.
