

# THE NIGHT WILL SOON BE OVER - DALTON & ANNA THOMAS MARANATHA / FAI 2020

G  
The powers of the air are gonna give way  
Em  
The sky will roll up, the mountains will fade  
C  
The redeemed of the King at the end of the age  
D  
Singing Maranatha Lord hasten the Day

So take the scroll, break its seals  
Stars fall, earth reel  
The man with the scepter, the man with the  
sword  
The man of the cross will soon be crowned Lord  
C D  
And this night will soon be over

So bow your knee, and turn your eyes  
To the only one worthy, the only one right  
His eyes are like fire, in glory He'll ride  
To Jerusalem as He rips through the skies

The blood of the Lamb will be our only hope  
When the plagues and the fire and the blood and  
the smoke  
Fall upon nations and fall upon kings  
Preparing the way for the end of all things  
C D  
And this night will soon be over

When the seals and the trumpets and all of the  
bowls  
Have run their course and taken their toll  
And the last of the wicked have taken their stand  
Before the Lord at the Lord's right hand

In Zion a fountain of judgment and burning  
Will open for cleansing, for those who are  
yearning  
For this night to soon be over  
For this night to soon be over

And this night will soon be over  
And this night will soon be over

C D Em D  
Heaven can't restrain forever (x3)  
He will return

G Em  
He will return, He will return  
C  
D  
Like the breaking of the dawn for which we've  
yearned

The wrath and the fury, the wonder, the glory  
The splendor the horror, the end of the story  
We who survive and who call on His name  
Will never taste death, for death is our gain

We will rule and we will reign  
With the Son of Man, with our new names  
For endless ages with unveiled faces  
We'll finally see the reward of our faith in Jesus,

G C  
our Morning Star, our Morning star  
in Him the night is over
