THIS IS THE YEAR TO CONQUER THE CHALLENGES OF YOUR MATH PROGRAM!

Confidently build the components of a math classroom!  
Improve student engagement and make math more fun! 
Get new teachers prepared and excited! 
Support elementary teachers who are moving to middle school! 
Start your new secondary school!

The Consulting Program of the Math Institute was designed just for you!

WHAT IT IS: 
A highly-customized approach from AMI-trained practitioners, for your school, your program, and your budget.

WHAT IS NOT: 
A one-size-fits-all, boiler plate program, gifted-wrapped and handed to you.

WE PROVIDE: 
First, we observe. Then, we provide feedback, suggestions, and concrete plans to move toward the vision of your math program.

YOUR OUTCOME: 
The pathway to your vision!

COMPONENTS OF THE CONSULTING PROGRAM:
- Observation and diagnosing
- Math Content Workshops
- Teacher training
- Coaching
- Ongoing support throughout the year
- Presentations to administration and parents
- Support for the prepared environment
- Suggestions on open work and lessons, 3-period work, Student grouping, Integrating seminar
- Guidance on how to implement Michael Waski’s algebra and geometry albums and review sets.

WHO WE ARE:
We are five highly-seasoned Montessori math practitioners who have been in your situation. We have experience from elementary through high school, in both the private and public sectors, and are doing this work out of compassion and humility. Now, we want to be your advocates.

INTERESTED IN LEARNING MORE? 
Fill out the interest form online and The Math Institute will be in touch with you.
