**Steplites**

### L121 SERIES

#### Description

This ultra compact Steplite features high performance LEDs. It is appropriate in a variety of interior or exterior applications. The rugged construction, engineering excellence, and quality make this fixture ideal for specification in most public areas.

#### Features

Stainless steel housing construction ensures maximum exterior durability. Satin finish and frosted tempered glass diffuser provides a sleek modern appearance. Integral driver simplifies specification and installation.

#### Applications

The 121 Series Steplites are suitable for concrete pour/block wall and stud wall mounting in indoor or outdoor installations. They are ideal in low walls and stairways for general illumination, and for use as marker lights.

#### Custom

If your project demands a special fixture we would be pleased to discuss the production of modified standard fixtures or custom fixtures to suit your specific conditions. For more information on our custom capabilities, please contact your local Cole representative.
