**2159 SERIES**

**2159D SERIES**

**DIRECTIONAL**

**Description**

The 2159/2159D Series of Steplites is a low-profile site fixture, with LED or fluorescent lamp options. Its width allows relatively wide light distribution to the side in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

**Features**

Louvers in the 2159 Series are more widely spaced than in most fixtures of this type, allowing for significantly greater forward projected illumination. The thick cast aluminum louvered faceplate also provides exceptional durability. The 2159D Series has a spread lens facing slightly downward for optimal illumination and minimized visual glare. Cole Steplites feature an optional cast aluminum junction box which may be easily field mounted to either the back or bottom of the housing to best suit installation conditions.

**Applications**

The 2159/2159D Series Steplites are suitable for concrete pour/block wall and stud wall mounting in indoor or outdoor installations. They are ideal in low walls and step risers where wide spacing is desirable.

**Custom**

If your project demands a special fixture, we would be pleased to discuss the production of modified standard fixtures or custom fixtures to suit your specific conditions. For more information on our custom capabilities, please contact your local Cole representative.

**SPECIFICATIONS**

**Construction**
- Fixture housing is constructed from die-formed 16 gauge electro-galvanized steel finished with a white polyester coating.
- Faceplate is cast aluminum with metallic aluminum powder coating, retained by stainless steel screws.
- Diffuser in the 2159 is frosted tempered glass; the lens in the 2159D is ribbed tempered glass. Both are set in silicone sealant.
- Reflector is constructed of white die-formed aluminum.
- Optional junction box is cast aluminum with polyester coating.
- cETLus listed, suitable for wet locations in any IC, non-IC and concrete/pour wall construction.

**Electrical**
- Fixture is wired with high performance LEDs or compact fluorescent lamps. Integral drivers and electronic ballast are universal voltage.
- Housing provided with 1/2" conduit knockout on each side, suitable for 4 wire thru-wiring, 2 in 2 out.
- Optional junction box allows 8 wire thru-wiring, 4 in 4 out. Provided with two 1/2" tapped conduit entrances in the bottom and one 1/2" tapped conduit entrance in each side.

**Mounting**
Housing has flanges with holes for mounting.

---

**Alternate faceplate color:** Black or white. Add suffix -BLK or -WHT.

**Optal glass diffuser:** Tempered (Not available on directional models). Add suffix -OPL.

**LED colors:**
- 4000°K (438 lm), -HO (747 lm). Add suffix -4K.
- Amber* (FWC compliant, 560 nm). Add suffix -AMB.
- Blue* Add suffix -BLU.
* Not available in HO.

**How to Specify**
1. Select catalog number with desired features.
2. Add suffixes for options required to meet job conditions.

**Options**

- **Junction box:** Bottom or back mounted as required for feed-thru. Add suffix -J.
- **Sharp cutoff louver:** Below horizontal illumination. Add suffix -SCL.
- **Bronze faceplate:** Satin finished, clear coated. Add suffix -B.
- **Dimming:** Universal voltage 0-10V driver. Add suffix -DIM.
- **Tamperproof screws:** Socket head faceplate screws. Add suffix -TP.
