SL190/SL290 SERIES
Surface single compartment
The SL190/SL290 Series of signs offer clean styling in a popular size. The extruded aluminum housings feature a black polyester finish with copy on white snap-in panels. The wider SL190 Series is LED and available with an emergency battery backup system. The thinner SL290 Series offers a more sleek appearance. Either series may be specified for wet location installations. Many standard copy selections are available with custom options available upon request.

SL191 SERIES
Recessed single compartment
The recessed SL191 Series of signs offer clean styling in a popular size. The extruded aluminum trim features a black polyester finish with copy on white snap-in panels. SL191 Series is LED and available with an emergency battery backup system. This Series may be specified for wet location installations. Many standard copy selections are available with custom options available upon request.

S252 SERIES
Small surface/recessed single compartment
The compact S252 Series of signs provide a less obtrusive presence where smaller copy is acceptable. Many standard copy selections are available with custom options available upon request. It is available with LED modules, or a E26 medium based lamp. Many standard copy options are in stock, and custom panels are available as required.
