Description
The L159 Series of Steplites is an extremely compact, low profile site fixture ideal for applications such as step risers and low curbs. Its width allows relatively wide light distribution to the side in a variety of exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

Features
Exceptional durability is provided by the thick cast aluminum faceplate and the tempered glass diffuser. The L159 Series features an integral feed-thru junction box.

Applications
LED modules work extremely well in cold climate conditions. The L159 Series Steplites are suitable for concrete pour/block wall mounting in indoor or outdoor installations. Their low profile makes them ideal for step risers.

Custom
If your project demands a special fixture we would be pleased to discuss the production of modified standard fixtures or custom fixtures to suit your specific conditions. For more information on our custom capabilities, please contact your local Cole representative.

Optional faceplates and finishes available
L159W-BLK-AMB — Black faceplate and amber LEDs

Standard and high output LEDs are available in a variety of colors.
### L159 SERIES

#### SPECIFICATIONS

**Construction**
- Fixture is constructed from die-formed 18 gauge stainless steel
- Faceplate is cast aluminum with metallic aluminum polyester coating, gasketed and retained by stainless steel screws
- Diffuser is frosted tempered glass set in silicone sealant
- cETLus listed, suitable for wet locations, in any wall construction.

**Electrical**
- Fixture is wired with standard or high performance LEDs
- Integral driver is standard universal voltage driver; optional 0-10 dimming driver
- One 1/2” conduit knockout provided on each side of housing, suitable for 4 wire thru-wiring, 2 in 2 out.

**Mounting**
- Housing has flange with holes for mounting.
