### 252 SERIES

**Description**
The 252 Series is a versatile range of Steplites, appropriate in a variety of interior or exterior locations. The rugged construction, engineering excellence, and quality make these fixtures ideal for use in most public areas.

**Features**
With LED modules or E26 medium base lamps this fixture may be used for combustible interior construction. All models are suitable for concrete pour. Exceptional durability is provided by the thick cast aluminum louvered faceplate and frosted tempered glass diffuser. Models with a formed steel faceplate are available with a convenience outlet. Cole Steplites feature a cast aluminum junction box which may be easily field mounted to either the back or bottom of the housing to best suit installation conditions.

**Applications**
252 steplite fixtures will work well in very cold climates. They are ideal in low walls and side wall mounting at stairs or as night lights in hallways or rooms. The vertical format is suitable for bollards.

**Custom**
If your project demands a special fixture we would be pleased to discuss the production of modified standard fixtures or custom fixtures to suit your specific conditions. For more information on our custom capabilities, please contact your local Cole representative.

Options

Junction box: Bottom or back mounted junction box as required for feed-thru. Add suffix -J.

Cast Bronze faceplate: Satin finish, clear coated. (L26 models) Add suffix -B.

Stainless steel faceplate: Louvered and non-louvered. Not available in L26. Add suffix -N.

Tamperproof screws: Socket head faceplate screws. Add suffix -TP.

Alternate faceplate color: Black or white or custom color. Add suffix -BLK, -WHT or -CC (Contact factory for custom preference).

Opal glass diffuser: Tempered. Add suffix -OPL.

LED colors:
4100°K (146 lm), HO (384 lm), HO-2 (768 lm).
Add suffix -4K.

Amber* (FWC compliant, 590 nm). Add suffix -AMB.

Blue* Add suffix -BLU.

* Not available in HO-2.

Dimming: Universal voltage 0-10V driver. Add suffix -DIM.

How to Specify
1. Select catalog number with desired features.
2. Add suffixes for options required to meet job conditions.

Steplites

252 SERIES

SPECIFICATIONS

Construction
- Housing is constructed from 16 gauge electro-galvanized steel finished with a white polyester coating
- Faceplate is 20 gauge steel with metallic aluminum polyester coating, or 20 gauge satin stainless steel, each are gasketed and retained by stainless steel screws
- Diffuser is frosted tempered glass set in silicone sealant
- Optional junction box is cast aluminum with white polyester coating
- cETLus listed suitable for wet location in any wall construction
- All models are suitable for concrete pour.

Electrical
- Fixture is wired with high performance LED modules, or one E26 medium base lamp socket
- Integral driver is standard universal voltage; optional 0-10V dimming driver available
- Housing provided with 1/2" conduit knockout on each side suitable for 4 wire thru-wiring, 2 in and 2 out
- Optional junction box allows 8 wire thru-wiring, 4 in and 4 out. Provided with two 1/2" tapped conduit entrances in the bottom and one 1/2" tapped conduit entrance in each side.

Mounting
- Housing has flange with holes for mounting.
