**Plugging Box**

**TLA362/364**

**TLS362/364**

**SERIES**

**CONCRETE POUR INSTALLATION**

**TLA362/TLA364** Series Plugging Boxes are recessed floor mounted enclosures designed for the temporary connection of up to two (362) or four (364) electrical devices in interior concrete pour installations. The cover set, with leveling screws, is adjustable and designed for dry pack grout after cover is leveled to finished floor. A non-skid textured surface is suitable for use in churches and school auditoriums.

**EXISTING FLOOR INSTALLATION**

**TLS362/TLS364** Series Plugging Boxes are recessed floor mounted enclosures designed for the temporary connection of up to two (362) or four (364) electrical devices in interior existing floor installations. The cover set features a non-skid textured surface, suitable for use in churches and school auditoriums.

Optional Finish Trim substitutes a brushed/satin finish on a smooth surface on both TLA/TLS plug boxes, suitable for use in offices, classrooms, and other public areas.

---

**Cast aluminum cover with non-skid grid, self-closing with cord slots**

**Carpet flange**

**Finish trim with cord slots**
