**TLS330 SERIES**

**Description**
The TLS330 Series Plugging Boxes are recessed floor mounted enclosures designed for the temporary connection of electrical devices in interior concrete pour installations where a minimal size is required.

**Features**
- Cover opens to provide access to devices.
- Cord slot allows door to remain closed with cord connected. When cover is closed, a separate inner cover closes the cord slot. Separate wiring compartments allow high voltage devices on one side, low voltage devices on the other.

**Applications**
The TLS330 Series Plugging Boxes are for installation in schools, churches, offices, civic buildings, and other locations for the connection of lighting, sound and service appliance equipment.

**Custom**
If your project demands a special fixture we would be pleased to discuss the production of custom fixtures to suit your specific conditions. For more information on our custom capabilities, please contact your local Cole representative.

Mounting area for devices: 5-3/8”W x 3-3/4”H on each side.

An inner door closes the cord slot when the TLS330 Series is not in use.

Simultaneous use of multiple receptacles.

**Mounting area for devices: 5-3/8"W x 3-3/4"H on each side**

**TLS330 SERIES**

**SPECIFICATIONS**

**Construction**
- Frame and door are cast aluminum with natural satin finish
- Housing and interior panel are 16 gauge steel with white polyester coating
- Frame has integral flange for carpet; optional flangeless frame is available
- Inner hinged cover closes cord slot when not in use

**Electrical**
- Interior panels are provided blank to allow contractor to install required devices; can be provided with specified devices factory-installed
- Housing has two 1/2"-3/4"-1" combination trade size conduit entrances in each end
- Separation barrier is required if high and low voltages are present in same interior panel

**Mounting**
Housing is designed for installation in poured concrete floors.

**How to Specify**
1. Select catalog number with option suffix(es).
2. Specify electrical devices if factory installation is desired.
3. Indicate special conduit feed locations if required.

**Catalog Number**
