

TIP IN CASH WHEN YOU USE DOORDASH.

Why? Because right now, DoorDash is **practicing a sneaky form of tip theft** by using customers' tips to subsidize the company's own costs instead of passing those tips directly on to the workers. When you tip up-front, we still get the same amount for the job - DoorDash just pays us less because you're tipping more.

IN OTHER WORDS: THE MORE YOU TIP, THE LESS DOORDASH PAYS US.

That's right - if you tip in the app up-front, **you're tipping DoorDash - not your driver.**

In fact, DoorDash pays **as little as \$1 per delivery** to workers if the tip is high enough to subsidize the rest of their pay.

That doesn't mean you shouldn't tip at all.

INSTEAD, TIP IN CASH.

Tipping in cash means your tip goes where you want it to go — directly to the worker delivering your food, not to a \$12 billion company.

And **let DoorDash know what you think about their shady tipping policies** by tweeting @DoorDash with the hashtag #PayUp or emailing tony@doordash.com.

THANK YOU FOR YOUR SUPPORT AS WE FIGHT TO MAKE DOORDASH BETTER FOR WORKERS AND CUSTOMERS!
