FIELD Visits – ON PHONE

Flowchart to Screen for 2019 Novel Coronavirus

Please attempt to call all clients PRIOR TO VISIT and assess the following:

Identify Potential Exposure
if in the past 14 days since first onset of symptoms a history of either

A.
- Travel to countries identified by the CDC*
- Close contact with a person with confirmed COVID-19 illness

OR

B.
- Identify Symptoms
  - Fever, cough, or shortness of breath (within last 14 days)

If person reports both Exposure (A) and Symptoms (B)

Cancel Visit & Inform
1. Cancel visit and make a plan to follow up
2. Encourage the client to call their PCP for further assessment
3. If client doesn’t have a PCP, provide information on locations to receive care
4. Provide client with the Coronavirus Call Center number 206-477-3977

If person reports only Symptoms (B)

Cancel Visit
1. Cancel visit and make a plan to follow up
2. Encourage the client to call their PCP for further assessment
3. If client doesn’t have a PCP, provide information on locations to receive care

* As of 3/3/2020, countries identified by the CDC as having widespread sustained or sustained community transmission:
  - China, Iran, South Korea, Italy, and Japan

March 3, 2020
FIELD Visits – AT CLIENT’S DOOR/IN PERSON

Flowchart to Screen for 2019 Novel Coronavirus

Please attempt to call all clients PRIOR TO VISIT to assess the following.

When you arrive at the client’s door (or at an alternate location) for a field visit, please assess again:
- Please assess the following for the client (and anyone in the home or accompanying them on the visit)
- Please remain at a distance of at least six (6) feet when screening
- If no one in the home or in the visit is ill, proceed with the visit
