

# Helmet Purchase/Donation Program 2023

Helmets Offered:

**Riddell Speed Flex:** Sizes: M, L: \$540 XL: \$560 (Fitting will take place at the parent/player meeting 3/8/23)

**Vicis Zero2:** \$1245.00  
(Fitting will take place at the parent/player meeting 3/8/23)

Helmet order window 3/8/23 - 3/15/23

## ABOUT THE PROGRAM

The most important piece of gear your player will wear is his helmet. While the WHS Football program maintains quality helmets in its inventory, the "Helmet Purchase/Donation Program" offers families the option to make a donation toward the purchase of a brand new, state of the art helmet to be used exclusively by their player during his high school career.

## HOW IT WORKS

1. The family makes a donation to the Falcon Gridiron Club for the cost of the helmet. Donations may be tax deductible and eligible for matching funds.
2. The school purchases the helmet on behalf of the player and includes it in the school's inventory.
3. The player effectively "leases" the helmet throughout his high school career. He will be the ONLY user of that helmet.
4. The helmet will be maintained, refurbished and recertified each year along with the other team helmets.
5. After the player's final season, the helmet will remain in the team inventory for future players.

# Riddell SPEEDFLEX™

## + PATENTED SIDE IMPACT PROTECTION (PSIP)

Research-based mandible protection that helps reduce forces from side impacts. Technology feature includes side shell extensions combined with side liner systems

## + THE FLEX SYSTEM

Flexibility engineered into the helmet's shell, face mask and face mask attachment system with hinge clips reduces impact force transfer to the athlete

## + COMPOSITE ENERGY MANAGEMENT

Strategic combination of padding materials inside the helmet absorb impact energy and retain their position and purpose over extended duration of play

## + ALL-POINTS QUICK RELEASE

Face mask attachment hardware precision-milled from stainless steel. Disengages with a simple press of a button.

## + TRU-CURVE LINER SYSTEM

Interior liner that conforms to the shape of a player's head and fits the contours of the helmet shell (crown, back/side, occipital lock, face frame) for improved comfort and fit

## + OCCIPITAL LOCK

Inflatable liner that, when inflated, cradles the athlete's occipital lobe, improving the helmet's security and fit

## + RATCHET-LOC™ RETENTION SYSTEM

Ratchet-style chinstrap attachment system developed from elite player feedback and designed for easy, efficient adjustments to help secure proper fit for every play

## + HS<sup>4</sup> FACE MASK

High strength spring stainless steel; thinner and lighter, high performance face mask improves sightlines and field vision for the athlete

## + CUSTOM FIT LINER

Five areas for air inflation (crown, back/side, occipital lock, face frames) for a custom fit

## + FLEXLINER

Flexible liner designed to conform to various head shapes, providing comfort and stability

## + QUICK CHANGE LINER ATTACHMENT SYSTEM

Removable padding system with screw-in caps, designed for ease-of-use when switching pads

# THE NEXT LEVEL IN DESIGN, PROTECTION, AND PERFORMANCE

With athlete safety at its core, the VICIS ZERO2 sets the new standard in impact mitigation, outperforming the ZERO1 in every location on both independent laboratory tests (NFL/NFLPA & Virginia Tech).\*

## DEFORMABLE OUTER SHELL

Flexible outer shell technology, exclusive to VICIS helmets, allows the ZERO2 to respond like no other helmet on the market. By deforming like a car bumper, impact forces are absorbed at the point of contact, before they reach the head. The result is not only groundbreaking protection, but a helmet that feels like no other.

## VICIS RFLX 2.0

Optimized for the ZERO2, VICIS RFLX 2.0 continues to leverage buckling structures, but has evolved the design with an array of columns interconnected by thin, flexible walls. The result is greater impact performance at a lower weight, allowing VICIS to further tune impact performance in key locations.

## REINFORCED INNER SHELL

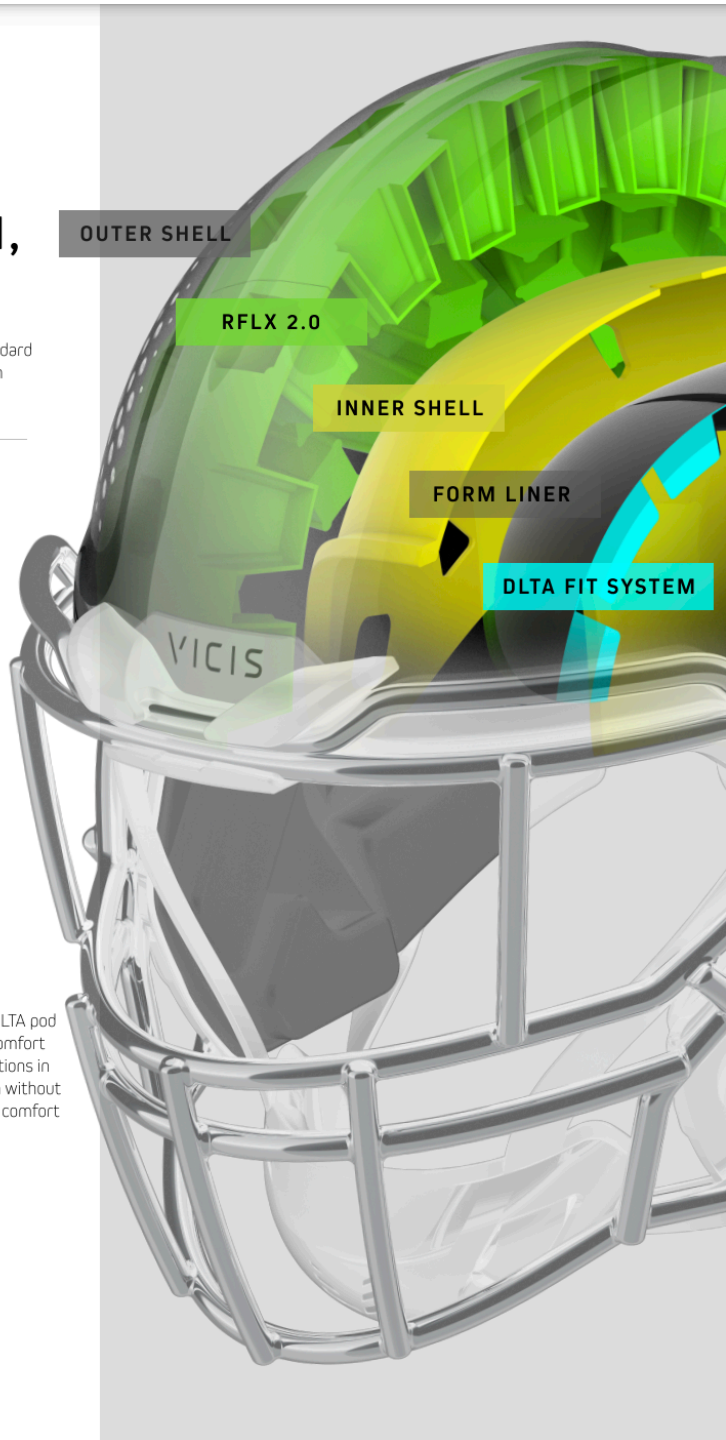

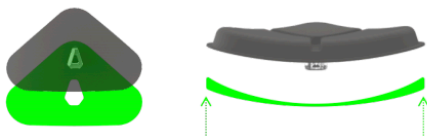

The inner shell has been engineered through data collected from hundreds of head shapes to optimize fit accuracy, maximize player comfort, and accommodate a wider range of players.

## DLTA FIT SYSTEM

Raising the bar for personalized comfort and secure fit, the VICIS DLTA pod system is comprised of two layers: impact on the RFLX side, and comfort against the player's head. Fully interchangeable pads across 6 locations in multiple thicknesses translates to virtually unlimited customization without the need for air bladders. Updated pod materials provide upgraded comfort and improved durability.

## FORM LINER

The Form Liner, which is located under the DLTA pod, provides an adjustable contour for a locked in feel in the side and occipital regions, yet can be easily removed for an extended fit range.

# VICIS ZERO2

## SIGNIFICANT WEIGHT REDUCTION FOR IMPROVED ON-FIELD PERFORMANCE

A LIGHTWEIGHT HELMET WITH A STREAMLINED NEW DESIGN

The ZERO2 features a new and innovative approach to VICIS' RFLX structure to reduce weight without compromising performance. The ZERO2 is 15% lighter than its predecessor ZERO1, and features a new streamlined design with an array of customization options available to each athlete.

## SUPERIOR FIT, EXCEPTIONAL COMFORT

CUSTOMIZED FOR PLAYER PREFERENCES

DLTA pods deliver the new VICIS standard for customized comfort and a secure fit without air bladders. Interchangeable pods snap in and out of six locations instead of three, with five thicknesses available.

More configurations, fewer parts, easy inventory management.

Color coded pods allow for easy configuration and organization

## SHELL SIZES

SIZE	MINIMUM CIRCUMFERENCE	MAXIMUM CIRCUMFERENCE
MEDIUM	20.25"	22"
LARGE	21.5"	23.5"
EXTRA LARGE	23"	UP

## COMPONENT SIZING OPTIONS

PART	AVAILABLE OPTIONS (STANDARD WITH HELMET IN BOLD)				
STABILIZER PADS	<b>0.75"</b>	<b>1.00"</b>	<b>1.25"</b>	<b>1.50"</b>	
DLTA PODS	<b>0.50"</b>	<b>0.625"</b>	<b>0.75"</b>	<b>0.875"</b>	<b>1.00"</b>
FORM LINER	<b>SIDE</b>	<b>OCCIPITAL</b>			

## EDGE SHIELD BY OAKLEY

Designed exclusively for the ZERO2 and engineered for optimal vision, the EDGE Shield offers players enhanced safety and performance by providing the sharpest vision with minimum distortion.

## FIELD OF VIEW

The ZERO2 features industry leading horizontal and vertical field of view to maximize situational awareness and downfield line of sight.

## HARD MOUNT

Standard VICIS hardmount facemask attachment.

## RAPID MOUNT

Newly designed Rapid Mount facemask attachment option allows for easy install and removal through rotate and release functionality.

## FUSION CHINCUP

Custom built for the VICIS ZERO2, the Fusion Chincup features a deformable upper panel for improved comfort, streamlined strap routing, and shell integration without sacrificing protection.

## UPDATED TITANIUM FACEMASK

All new titanium masks, built exclusively for the ZERO2:

No helmet can prevent head, brain, or neck injuries, including paralysis or death, a player might receive while participating in football. Keep your head up. Do not use this helmet to butt, ram, or spear an opposing player. This is in violation of football rules and such use can result in severe head or neck injuries, paralysis, or death to you and possible injury to your opponent. Contact in football may result in CONCUSSION AND OTHER SERIOUS BRAIN INJURIES, which no helmet can prevent.
