

INTRODUCING LAMB

LAMB is a health project in rural North West Bangladesh serving an area that is home to one and a half million people.

The team at LAMB together provide quality health care through working with the community in running local clinics, safe birth units in 28 outlying villages, outpatient clinics and the facilities of LAMB's 150-bed hospital.

LAMB is a Christian project staffed by Bengali workers and International volunteers who work together to uphold the Christian values of LAMB whatever their faith background.

LAMB Health is a UK based charity that supports LAMB's work by raising funds, interest and prayer. We embrace the values embedded in LAMB's work and invite you to join with us in adding value.

LAMB VALUES HEALTH CARE FOR ALL

Whilst Government and other health services are improving all the time there is still a huge barrier for those who are poor and unable to pay. LAMB treats everyone who comes by providing bursaries to support those unable to pay. LAMB Health raises money specifically to cover this cost, the Poor Fund.

LAMB VALUES QUALITY LIFE FOR THE HIDDEN

LAMB has pioneered work with disabled children and their families through the rehabilitation team. Faced with children or older family members with mental or physical disabilities, families can be overwhelmed; those in need are often hidden away. The rehab team works with families and communities to achieve a better quality of life through understanding, mutual support, training and practical help.

Women with complications arising through poor maternal health care find themselves incontinent, shamed and often rejected by husbands and families. LAMB works to find these women, and through an operation (fistula repair) transform their lives.

LAMB VALUES THE POSSIBILITY OF A DIFFERENT FUTURE

LAMB Health has been able to access grants for a community programme reaching thousands of teenagers in the surrounding area. It builds understanding in young people to avoid the harmful effects on health, education and social wellbeing of very early marriage for girls. The project works with boys too, to build a greater respect for women.

LAMB VALUES PARTNERSHIP

LAMB can only work in partnership with those of us who support it, from donor agencies to individuals who give a regular amount, small or large. If you would like to partner with LAMB in giving, by finding out more, praying or volunteering, let us know through the tear-off slip or through the website; www.lambhealth.org.uk

WHY SUPPORT LAMB HEALTH?

- The money we send makes a difference to thousands of people – we work where there is no alternative health system for the poor.
- All the money you give goes to LAMB – Trustees cover admin costs and their own expenses
- Different Trustees visit each year to see how the money is spent and to keep in touch with LAMB
- Some of the Trustees have worked at LAMB – we know its value.
- LAMB doesn't just treat sick people it tackles the underlying causes of poverty and ill-health.
