Plan Summary [2021-2022]

General Information
A description of the LEA, its schools, and its students.

American Indian Public Charter School II is located in downtown Oakland. We serve 653 students. The school community prides itself on being family oriented. The overarching goal is college and career readiness for all students and joint stakeholder strategic planning through the annual local control process aligns our resources and actions to serve our students in pursuit of this goal.

AIMS Mission Statement
Our mission at AIMS is to cultivate a community of diverse learners who achieve academic excellence. Our commitment to high expectations in attendance, academic achievement, and character development results in our students being prepared for lifelong success. The results driven culture at AIMS and the adherence to it with fidelity guarantees that all graduates earn admission into four year post-secondary programs and become productive members of society.

AIMS Credo The Family:
The Family: We are a family at AIM Schools
The Goal: We are always working for academic and social excellence.
The Faith: We will prosper by focusing and working toward our goals.
The Journey: We will go forward, continue working, and remember we will always be a part of the AIM Schools family.

AIMS Values At AIMS we value:
Excellence - Commitment to excellence in all that we do
Wisdom and Knowledge - Pursuit of wisdom and knowledge as intrinsically valuable
Empathy - Recognition of dignity and worth of every human being Family and Community - Building of family and community
LCAP Goals

1) **Academics & Curriculum**: We will commit to academic excellence by ensuring that all students receive Data-Driven Instruction and curriculum in Common Core State Standards (CCSS), Next Generation Science Standards (NGSS), other California State Standards (ELD, Social Studies, World Languages, Visual Performing Arts).
2) **Instruction Development & Support**: Provide high quality classroom instruction from appropriately credentialed teachers and staff that promotes college and career readiness with academic interventions and professional development to eliminate barriers to student success.
3) **Measurement of Data**: Use technology and supplemental education resources to increase staff effectiveness, progress monitor, and improve student outcomes in becoming 21st century learners and educators.
4) **School Culture & Climate**: Create a safe and positive school that's based upon the principles of family and community, the recognition of dignity and worth of every human being, and social awareness and justice that leads to action.

**Reflections: Successes**
A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

The California School Dashboard reveals that our school performed very well in both ELA and mathematics. We scored in the GREEN range for English Language Arts. For Mathematics, we scored in the BLUE range, which is the highest range on the dashboard. We ranked as “HIGH” in terms of our English Language Learners making progress towards English Language Proficiency at 55.9%.

**Reflections: Identified Need**
A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

The Dashboard revealed a range of ORANGE in terms of our suspension rates. Since then, we have implemented a Positive Behavior Intervention System and incorporated more restorative justice practices in daily routines and the classroom setting.

**LCAP Highlights**
A brief overview of the LCAP, including any key features that should be emphasized.

The LCAP serves as the school's annual work plan

**LCAP Goals**
1) **Academics & Curriculum:** We will commit to academic excellence by ensuring that all students receive Data-Driven Instruction and curriculum in Common Core State Standards (CCSS), Next Generation Science Standards (NGSS), other California State Standards (ELD, Social Studies, World Languages, Visual Performing Arts).

2) **Instruction Development & Support:** Provide high quality classroom instruction from appropriately credentialed teachers and staff, that promotes college and career readiness with academic interventions and professional development to eliminate barriers to student success.

3) **Measurement of Data:** Use technology and supplemental education resources to increase staff effectiveness, progress monitor, and improve student outcomes in becoming 21st century learners and educators.

4) **School Culture & Climate:** Create a safe and positive school that's based upon the principles of family and community, the recognition of dignity and worth of every human being, and social awareness and justice that leads to action. Finally, we will continue to expand School Culture and climate by promoting student activities that develop the holistic needs of each child and by teaching students how to value the intrinsic worth and human life of all individuals, regardless of their differences.

Key themes that are evident in this LCAP include:

- A focus on making up for the loss of learning during virtual learning/COVID-19
- An emphasis on Social Emotional Learning in the classroom and training for the staff
- Community Building
- Professional Development and Teacher Collaboration
- Extra support staff in the form of intervention aides to make up for any learning losses
- Assessments and data tracking
- Family and Community Engagement
- Safe and clean facilities
- A safe environment where students can go to learn
- Equity and Access
- Knowledge of the whole child
- Student centered approaches

**Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.
### Schools Identified
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

### Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

### Monitoring and Evaluating Effectiveness
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A
## Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

The LEA consulted, worked with, and developed plans based on the feedback from many stakeholders during the year and will continue to do so throughout the implementation of this LCAP. Administrators held meetings where they presented information about grants, expenditures, and plans to families and staff members. Family Advisory Committee meetings were held to gather stakeholder feedback and plan with their input. ELAC/DELAC meetings were also held to gather input. Annual parent and student surveys were compiled for consideration on the LCAP. Professional development and staff development days were also held to gather feedback from teachers and get input for current and future plans.

A summary of the feedback provided by specific stakeholder groups.

<table>
<thead>
<tr>
<th>Feedback provided by Specific Stakeholder Groups</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Stakeholders believed that we were allocating funds into the proper places to benefit students</td>
</tr>
<tr>
<td>- Stakeholders felt that we needed more intervention support in terms of small group instruction and pull-outs</td>
</tr>
<tr>
<td>- Stakeholders wanted more Social Emotional Learning and training because of the pandemic</td>
</tr>
<tr>
<td>- Stakeholders wanted a full-time counselor who was on-site for K-8 to help the students who were most in need</td>
</tr>
<tr>
<td>- Stakeholders felt that we handled virtual learning really well as we provided the same amount of instruction as in-person learning</td>
</tr>
<tr>
<td>- Stakeholders believed that English Learners needed more support with ELD.</td>
</tr>
</tbody>
</table>

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

For the creation of this LCAP, we took into account all of the stakeholders’ feedback from our various forms of engagement. To start out with, we hired more intervention staff. These intervention aides are now only serving 3-6 classes per week, which is a lot less than before. They are going to provide small-group instruction, push in and pull out services, as well as help to assess students. Stakeholders realized that we needed more SEL in the classrooms and the training to implement it correctly. We agreed and we are setting aside money for professionals to come out and train our teachers on how to correctly implement SEL practices. To help with emotional support, we are hiring an additional counselor who will be on-site at our 12th st campus for the full day. This counselor will be responsible for working with and supporting the students with the most emotional and behavioral needs. ELD support was something that many stakeholders mentioned during our engagement meetings. In this LCAP, we outlined our plan. This includes hiring an additional ELD teacher to support, using ELA curriculum with ELD components embedded, hiring an ELD consultant to train administrators, teachers, and look over lesson plans, and having more professional development specifically focused on how to implement ELD lessons effectively in the classroom.
## Goals and Actions

### Goal 1

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal #1</td>
<td><strong>Academics and Curriculum:</strong> We will commit to academic excellence by ensuring that all students receive Data-Driven Instruction and curriculum in Common Core State Standards (CCSS), Next Generation Science Standards (NGSS,) other California State Standards (ELD, Social Studies, World Languages, Visual Performing Arts).</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

By strengthening our commitment to Academics and Instruction, teachers and students will receive appropriately assigned instructional materials that are based upon the standards and facilitate student learning and achievement. Teachers that deliver high-quality instruction through the implementation of State Standards. An achievement gap exists for at-risk students, including English Learners, Foster Youths, and Low Income Subgroups.

</thead>
<tbody>
<tr>
<td>[Goal 2]</td>
<td>Instruction, Development, and Support: Provide high quality classroom instruction from appropriately credentialed teachers and staff, that promotes college and career readiness with academic interventions and professional development to eliminate barriers to student success.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

AIMS caters to the holistic needs of students by fully-funding all relevant and necessary instructional materials for students, school uniforms, and supplemental resources. Together, these two elements will help students, teachers, staff, and administrators thrive. We make sure to screen potential candidates and hire only those who are qualified to teach in an AIMS classroom. Our teachers go through weeks of professional development during the school year to ensure they are teaching up to our high standards.

</tbody>
</table>
## Administrative Assistants and Clerks

Administrative Assistants, clerks will provide promote a positive, proactive, professional, and efficient environment. The school will recruit, hire, and train effective clerical and support staff who promote a welcoming school climate, support student attendance, and provide effective operations and support for students, parents and staff.

- **Amount:** $392,042

## School Supplies, Uniforms, and Instructional Materials

The school will provide all necessary resources and components to support student learning, including school supplies, uniforms, science lab, and other instructional materials.

- **Amount:** $122,280

## OUSD SpEd Encroachment

The school contributes an annual encroachment fee of nearly $1800 per eligible student to the Oakland Unified School District (OUSD) SELPA for SPED Services. OUSD is responsible for providing individualized education plans, resources, and services for students with disabilities to be successful in the school.

- **Amount:** $1,214,325

## Summer School

AIMS Summer School will be held each year in July. Students who failed the AIMS Finals, benchmarks, or have grades of a C- or below will be required to attend.

- **Amount:** $30,000

## Teachers on Special Assignment

Teachers on Special Assignment will lead teacher collaboration, deliver professional development, help with lesson planning, observe teacher pedagogy, and give feedback.

- **Amount:** $222,478

---

<tbody>
<tr>
<td>[Goal #3]</td>
<td><strong>Measurement of Data:</strong> Use technology and supplemental education resources to increase staff effectiveness, progress monitor, and improve student outcomes in becoming 21st century learners and educators.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Due to COVID-19 school related closures, AIPCS II will continue to analyze and assess verifiable data that is norm-referenced for reporting to the state and our charter authorizer, as this information will help determine how best to mitigate any potential student learning loss. AIMS. We will also use technology and various online programs to track student performance data, share the data, and plan with it. Our goal is to give assessments during the year to track a student’s progress throughout the year.

**Goal 4**

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
</table>
[Goal #4] **School Culture and Climate**: Create a safe and positive school that's based upon the principles of family and community, the recognition of dignity and worth of every human being, and social awareness and justice that leads to action.

An explanation of why the LEA has developed this goal.

To provide students and families with appropriate health services interventions to be healthy and be able to learn. These services are principally directed and are an effective use of funds, targeting our unduplicated students. COVID-19 has reminded us that the holistic needs of students (particularly mental health) must be taken into account in order to facilitate student and community success. Our goal is to provide a positive, safe, and comfortable environment where students and teachers only need to worry about teaching and learning. We also want to focus on positive interactions with staff and students. We want to teach students how to learn from their mistakes, interact with their peers, and build trust within the school community.

With the rise of racial/ethnic violence spreading throughout the Bay Area, we at AIMS want to show that we are doing more than just providing verbal support. Through our practices in restorative justice, we have developed and will continue to practice using community circles. We find that this is the best way for students to create dialogue, learn about each other’s background, cultures, and mannerisms. Our goal is for everyone to talk about these issues head on and to learn to build friendships by discussing the current issues as well as their feelings. Teaching students to learn to accept others for who they are is one of the main goals which is rooted in Goal 4. As for students who have been victims or witnessed acts of violence because of their skin color or race, we will have an on-site counselor who will be there for emotional support. We want to make a stand and teach students to love thy neighbor. We want to show that the classroom is a safe space for students of all races.

</tbody>
</table>

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

**Required Descriptions**

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

**English Learners:**

**Goal 1, Action 1.1 - Enhanced Curriculum / Instruction for English Language Learners:** Enhance and modify curriculum and instruction to ensure English Learners have access to CCSS and ELD Standards. This enhancement will be improved professional development and support for instructional staff, and increased planning time to incorporate ELD standards into integrated instructional time. Due to distance learning, the gap of language support opportunities has widened. Many ELs failed some content core subject classes and did not make growth in their reading lexile. 65% of English learners are still below basic in reading. Teachers and staff will be aware in the beginning of the school year that ELs need support and they can be placed in intervention right away.

We will meet this goal by providing a curriculum with embedded ELD, hiring ELD teachers, ELD consultants, providing social emotional learning, Academic Saturday Schools, Summer School, and hiring intervention staff to help on a daily basis.

Ensure a high-quality academic program for English learners: Designated ELD to build language skills and integrated ELD to support acquisition of content knowledge. Monitor RFEPs for continued academic success Professional development to understand and differentiate instruction based on the specific needs of newcomer ELs and students who could become LTELS Professional learning on strategies for students who are English learners addressing their language and academic needs. Monitor progress to strengthen implementation in assessments and intervention. (Benchmark, ELPAC and SBAC) ensuring efficient and effective classroom/course and intervention placement.

**Goal 1, Action 1.10 - ELD Consultant:** The ELD consultant will be used to provide professional development for our teachers. This includes showing teachers how to properly and effectively use designated ELD during the day and integrated ELD when teaching to the students in general education and English Language Learners. The consultant will also review the ELD master plan to make sure that the ELD program includes all of the required components required by law. The consultant will guide administrators on how to implement the EL Roadmap along with evaluation.

**Goal 2, Action 2.2 - Teachers, Substitutes, and Teacher Incentives:** Our goal is to hire highly qualified teachers who have an EL authorization. This allows them to provide instructional services specifically to English Language Learners during the school year. This will
allow students to understand the teachers’ lessons that are only taught in English by using a multitude of strategies with designated and integrated ELD. We also want to help learners develop skills so that they can read, write, speak, and listen in English.

**Goal 2, Action 2.3 - Integrated and Designated ELD PD:** The school will support general education teachers in support of ELLs. To ensure a high-quality academic program for English learners: Professional development to understand and differentiate instruction based on the specific needs of newcomer ELs and students who could become LTELS. Professional learning on strategies for students who are English learners addressing their language and academic needs. Monitor progress to strengthen implementation in assessments and intervention. Decrease the number of Long Term English Learners. Students are not reclassifying at an expected rate. Integrated and Designated ELD will need to be the main focus to help support ELs for all levels. All staff will provide professional development on EL support.

**Goal 3, Action 3.4 - District-Wide Assessment & Data Platform:** Increase the District reclassification rate for English Learners. The percentage rates of reclassification did not meet the baseline that was set for the 2019-2020 school year. The expectation was set at 25%, however, the rates came in at around 5%. Academic Intervention support will help remediate skill deficits and accelerate learning to close the achievement gap.

- Decrease the number of Long Term English Learners. Students are not reclassifying at an expected rate. Integrated and Designated ELD will need to be the main focus to help support ELs for all levels. All staff will provide professional development on EL support.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

To ensure a high-quality academic program for English learners: Designated ELD will be taught to the general ed teacher to build language skills and integrated ELD to support acquisition of content knowledge. Monitor RFEPs for continued academic success. Professional development to understand and differentiate instruction based on the specific needs of newcomer ELs and students who could become LTELS. Professional learning on strategies for students who are English learners addressing their language and academic needs. Monitor progress to strengthen implementation in assessments and intervention. (Benchmark, ELPAC and SBAC) ensuring efficient and effective classroom/course and intervention placement. We have increased our support for professional development, curriculum development, and materials to target efforts at improving our outcomes for English learners.

Enhance and modify curriculum and instruction to ensure English Learners have access to CCSS and ELD Standards. This enhancement will be improved professional development and support for instructional staff, and increased planning time to incorporate ELD standards into integrated instructional time. Incorporate PLC with ELD teacher, follow up ELD professional development to ensure teachers are getting the appropriate support especially in integrated ELD.
**Instructions**

**Plan Summary**

**Stakeholder Engagement**

**Goals and Actions**

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

*For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education’s (CDE’s) Local Agency Systems Support Office by phone at 916-319-0809 or by email at lcff@cde.ca.gov.*

**Introduction and Instructions**

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

Annually reviewing and updating the LCAP to reflect progress toward the goals (EC 52064(b)(7)).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.
Plan Summary

Purpose
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year’s LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- Schools Identified: Identify the schools within the LEA that have been identified for CSI.
- Support for Identified Schools: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
Monitoring and Evaluating Effectiveness: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Stakeholder Engagement

Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

Prompt 2: “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

**Goals and Actions**

**Purpose**

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

**Requirements and Instructions**

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal**: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- **Broad Goal**: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal**: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
**Focus Goal(s)**

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Broad Goal**

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some
metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.
Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

### Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

**Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

This section must be completed for each LCAP year.
When developing the LCAP in year 2 or year 3, copy the “Increased or Improved Services” section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:
After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55%: For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55%: For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40% or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.
For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:

Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

**Expenditure Tables**

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action’s number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
• **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All”, or by entering a specific student group or groups.

• **Increased / Improved:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

• If “Yes” is entered into the Contributing column, then complete the following columns:
  
  o **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  o **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  o **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

• **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.

• **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
  
  o **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.

  o **Total Non-Personnel:** This amount will be automatically calculated.

• **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

• **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
