SEE. TOUCH.
LIVE THE FUTURE OF SAILING.
THE TF10 — FOILING RIGHT OUT OF THE BOX

The TF10 trimaran is the next-generation foiling sailboat, designed by Morrelli & Melvin, for a safe, accessible and comfortable high-performance sailing experience at America’s Cup level. Built by DNA Performance Sailing, the TF10 is also supported by a very well-organized international class association.

AWARD WINNING SPEED. The TF10 is Sailing World Magazine’s 2019 Foiler of the Year, and won the 2018 Yachts & Yachting Magazine Award. It was also nominated to be Multihull of the Year by Multihulls Magazine, and European Yacht of the Year in 2018!

### FEATURES

- Controlled foiling
- Fair, fun one-design racing
- Electronic rake controlled foils
- Created by owners, for owners
- Easy transport
- Simple retracting docking and trailer mode with folding amas
- Can be trailered without permits
- Easy to ship worldwide
- Inshore and coastal sailing
- Sleeps off-watch crew
- Launch on a standard ramp

### THE DETAILS

1. Southern Spars rotating mast
2. Stable electric control of angle of attack
3. Sail with foils retracted if conditions require
4. Race with 4 or 5, or double hand for easy sailing
5. Retractable amas for easy transport, storage
6. Furling gennaker
7. Masthead gennaker
8. Space for coastal offshore races
9. Self-tacking jib
10. End-plated mainsail

LICENSED TO FLY

The TF10 is easy to move from venue to venue. Retract the amas and transport the TF10 on its very own trailer (which also allows for easy indoor storage), or ship it on a standard 40 foot flat rack.

WORLD CLASS

The TF10 Class Association (TF10CA) is the owners group organization that supports the fleet on a worldwide basis. Please visit tf10class.com for the latest news and event announcements. Be sure to FOLLOW, LIKE and LOVE the TF10 on social media.
