The Department of Computer Science in the Faculty of Arts & Science and the Edward S. Rogers Sr. Department of Electrical & Computer Engineering in the Faculty of Applied Science & Engineering at the University of Toronto invite applications for a joint full-time tenure stream position. The successful candidate’s primary department will depend upon their field of expertise. The appointment will be at the rank of Assistant Professor, and will commence on July 1, 2022, or shortly thereafter.

Applicants must have a Ph.D. in Computer Science, Electrical and Computer Engineering, or a related field, by the date of appointment or shortly thereafter, and demonstrate a strong record of excellence in research and a strong commitment to excellent teaching.

We seek candidates conducting research in Machine Learning, with a focus on Deep Learning. We are especially interested in candidates whose expertise in deep learning includes a focus on applications to one or more engineering research themes, such as but not limited to, data analytics and intelligent systems, sustainability and engineering, and systems and human health.

We seek candidates whose research and teaching interests complement and enhance our existing strengths in the Department of Computer Science and the Department of Electrical and Computer Engineering. Eligibility and willingness to register as a Professional Engineer in Ontario is highly desirable.

The successful candidate will be expected to pursue innovative research at the highest international level; to establish a competitive, externally funded independent research program; and to contribute to the enrichment of both undergraduate and graduate programs in the departments.

The candidate will also be reviewed by the Vector Institute for Artificial Intelligence for consideration of appointment as a Faculty Member or Affiliate Faculty Member, and may be nominated for a Canada CIFAR AI Chair through the Vector Institute.

Evidence of excellence in research can be demonstrated by a record of contributions and publications in top-ranked field-relevant journals or conferences, or forthcoming publications meeting high international standards, the submitted research statement, presentations at significant conferences, awards and accolades, and strong endorsements by referees of top international stature.

Candidates will also be expected to demonstrate a strong commitment to excellent teaching at the undergraduate and graduate levels through a teaching statement highlighting previous
experience that can include leading successful workshops or seminars, student mentorship, delivering conference presentations or posters, or experience as a teaching assistant or course instructor. A commitment to excellence in teaching may also be demonstrated through materials such as sample course syllabi (either of courses delivered by the candidate or planned for the future), course evaluations, or other evidence of superior performance in teaching-related activities submitted as part of the application. Professional or lived experiences that enhance the ability to teach a diverse student body are highly valued.

Salary will be commensurate with qualifications and experience, and is competitive with our North American peers.

Concurrent with this search, the University of Toronto is undertaking a series of hires in the area of Deep Learning in recognition of University Professor Emeritus Geoffrey Hinton’s winning of the prestigious A.M. Turing Award in 2019.

The Department of Computer Science and the Edward S. Rogers Sr. Department of Electrical and Computer Engineering at the University of Toronto rank among the best in North America. Both Departments attract outstanding students, have excellent facilities, and are ideally located in one of the most vibrant, artistic, diverse and cosmopolitan cities in the world. Additional information may be found at [http://www.cs.utoronto.ca](http://www.cs.utoronto.ca) and [http://www.ece.utoronto.ca](http://www.ece.utoronto.ca). If you have any questions about the position, please contact recruit@cs.toronto.edu.

At the University of Toronto, the creation of an equitable, diverse, and inclusive community is incumbent on every member of the community (see [https://tinyurl.com/UofTEDI](https://tinyurl.com/UofTEDI)). Evidence of a commitment to equity, diversity, inclusion (EDI), and the promotion of a respectful and collegial learning and working environment will weigh favourably on the application. Such evidence may be demonstrated through the application materials, or in a separate statement covering topics such as (but not limited to): research or teaching that incorporates a focus on underrepresented communities, the development of inclusive pedagogies, or the mentoring of students from underrepresented groups.

Application materials for the position must be submitted online through AcademicJobsOnline at [https://academicjobsonline.org/ajo/jobs/19860](https://academicjobsonline.org/ajo/jobs/19860). The required materials are a cover letter, the candidate’s curriculum vitae, list of publications, research statement, teaching statement, and at least three letters of reference (on letterhead, signed, dated, and scanned) uploaded to AcademicJobsOnline directly by the writers.

Applicants should endeavour to submit all materials (including reference letters) by December 6, 2021, when we will start reviewing applications. However, we will give full consideration to all applications submitted by the closing date of January 10, 2022.

For more information about this position please see our websites ([www.cs.toronto.edu](http://www.cs.toronto.edu), [www.ece.toronto.edu](http://www.ece.toronto.edu), [vectorinstitute.ai](http://vectorinstitute.ai)) or contact recruit@cs.toronto.edu.
Caution: This ad is “posted only” to the U of T faculty job board. Please see the information above for the application instructions. Applications submitted via the U of T platform will NOT be considered for this position.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ2S+ persons, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
