Any other suggestions you have for: a) Future training you would like HEART to run; and/or b) How we can improve the way we spread the word about HEART in 2019?

"More on FV drugs & alcohol and family dynamics/relationships"

"Try to get more articles and coverage in newspapers, media, radio, and TV."

"I haven't seen HEART on social media?"

"I believe Heart is a great networker with community whanau and businesses, NGO, government orgs. Keep up the good work. They definately hear the hearts of our people."

"Training around dealing with children's experiences of family violence"

"I feel that i am getting a lot of information and personal development through what heart does in the community with what training i have had with heart and look forward to what heart has in the future everything i have done with heart is making our community stronger spreading the word in the future a lot has to do with us and how are able to get the word out there about all the stuff they do for the community"

"I think it is time for some media coverage to share the story of HEART and show what locals are doing to make change. It would be great to start running trainings on race/ racism and gender/ patriarchy - not sure if the community is ready for this yet."

"Nothing I can think of. I also feel that I am approach the coordinator and share my thoughts at any time, so no pressure to share here."

"No Heart provide great trainings and workshops for the community. Keep up the good work."

"Nandita does a fantastic job! Really appreciate the communications and the different training. Looking forward to attending a training in the future"

"I think HEART do a great job already. Keep up the great work you do, continue to be seen and heard and keep the lines of communication open and honest."

“Adult teaching facilitation motivational interviewing practice groups and group peer support maketspace group people learning together involved in projects teaching each other digital skills hands on”

“Totally value Heart - and Heart training - Pete Thorburn is so great. I really appreciate this free training that we have access to - otherwise I probably wouldn't get any training at all from work as to pay for it makes it hard to be allowed to go for training.”

“I would like to suggest that if possible training workshops/sessions are repeated on other dates. Its really hard to miss them because of other appointments. This would be the same for family focused workshops, educational sessions for families etc. A focus on rotating through some important topics for families.”

“Heart is doing a great job!”
