

## **Pre-Game Logistics**

**Contact Opponents** - Contact your opponent during the week before each game to verify time, field location, team colors, and to be aware of special problems with fields or personnel. There's nothing more frustrating than to show up with your team at a field expecting a game, only find out you or your opponent has the wrong field or time!!

**Game Day Rosters** - Each team (coach or manager) is responsible for [providing multiple copies of the team's Roster](#) for every regular season game. This information is used by coaches & referees to ensure the integrity and safety of the players and the competition is maintained.

**Parking** - Please check the Find a FIELD and More/Field Locations and Directions page for notations on parking at various sites. Thanks for your consideration to park in the right places and respect the facilities and neighbors

NOTE: Washington Park Field -- There are been many car break-ins and thefts reported in the parking lot. Do not leave valuables in your car during games!

**Field Setup** - Diagrams for U11 and U12 Fields -- [Click here](#).

**U10 Jamboree** - As a way to introduce new rules and a broader scope of competition, U10 teams participate in a one day Jamboree. This involves a series of three 20-minute matches at one field before the regular season starts. The Seattle Soccer Referees Association (SSRA) also uses this event to train new referees. Refer to the Jamboree Team links above to determine your team's assigned group, then look up the group in the Jamboree Schedule to find game times and location. Information about the 8-9 game regular season which starts the weekend after the Jamboree is also available above.
