The Fields Task Force developed a set of values and principles that informed and guided its work and decision making. These principles are listed here.

- All players in SYSA should begin with a minimum allotment of three hours of practice time per week, to be utilized by the club according to their individual club practice model.
- The distribution of practice fields within a region should be proportional to the number of players in a club.
- Proportional access within a region is guaranteed to all clubs across the spectrum of field types and quality, whether the field is dirt, grass, or synthetic, lighted or not.
- Proportional practice field allocations runs from Monday through Friday.
