

Books for Every Child: A Global Pledge

My organization pledges to become a partner of the Global Book Alliance.

We pledge to support the GBA's vision for a world in which all children achieve literacy and have access to quality books in a language that they understand.

We pledge to uphold the GBA's mission and work to transform the lives of millions of children by working with partners to identify, promote, and support innovations, best practices, and policies that will change the way books are created, procured, and provided.

We pledge to uphold the GBA's objectives, to the best of our ability, through our policies, programs, activities, and practices.

We pledge to increase and improve our own efforts to ensure all children have books they need to learn how to read.

Together, we can achieve a world in which all children have access to quality books that they can use to learn to read, read to learn, and develop a love of reading.
