The future is dynamic and collaborative—There is a growing need for customised solutions and responsible design that thinks globally and acts locally. These are the values that are increasingly sought after when it comes to commercial design and are at the core of Derlot Group’s furniture brands—Derlot Editions and Les Basic.
Embracing and Bold

Caterpillar segments come together to form a continuous undulating sofa system offering the flexibility of tight radiuses, straight seating and ottomans. Designed for maximum comfort and lumbar support, Caterpillar makes all kinds of meeting places and contexts inviting.
Intimate & Relaxed

The notorious club chair in a minimal, modern guise: Biggie is bold and offers intimate and relaxed moments in a shape designed to soften and enhance living and commercial spaces.
Casual, Homely Modularity

Based on the highly popular Tetromino range, Tetromino Soft offers a new typology of seating designed for modularity and homely comfort. The collection allows seating elements to be configured to create casual retreats and work hubs with compactness and multi-functionality in mind.
An Array of Combinations
Prisma is designed to form an array of combinations suitable for even the most diverse environments. It delivers a striking, all-encompassing solution for today’s modern office or educational environment. A compact size makes the system genuinely versatile and adaptable for use in both small and open spaces.
Stump
Friendly and Relaxed

Stump is a contemporary collection of recyclable LDPE plastic stools. The collection boasts a number of heights, multiple colours, and LED integration. Stump helps create a friendly and relaxed visual landscape for both indoor and outdoor projects.
Twig interprets natural forms into a versatile and durable seating system suitable for creating meeting points and lounge areas that encourages diversity, fluidity and social interaction amongst its users. Available in recyclable LDPE plastic, Upholstery or illuminated finishes.
